Dear committee,

Here I attach the revision of my final paper submission. I have revised according to your review comments. Thanks alot!

Best regards,
Sarifah

As the committee previously explained that the revised paper would be submitted to the IOP publisher.

We have rigorously check of your paper, and we found that it's still not well revised based on the reviewer's comments. Therefore, Please revised your paper and send us the revised version before January 27, 2018, at 23.59 PM.

All the revised papers will be submitted to the IOP Publisher by January 28, 2018. If it's can not finish by the due date, you still have a chance to submit it at the second round submission (by February 17, 2018) with USD 70 additional fee.

Herewith the Reviewers and Editors comments:

result

- What is the mitigation model name? please indicated in the title and abstract.
- The authors need to add some results in the abstract.
- How about if you add more experiment in Table 1?
- I did not found any results in the conclusions.
- Improve your Introduction by add more literature from the Journal (min 15)
