Dear committee,

Here, we attach our final paper submission formatted Latex and pdf version (generated by the original latex format of IOP Series, according to LOA). We would also like to inform that we can not upload the final version of paper via Edas because our paper status is still active which means the featured is disabled. Pertaining this issue, please change our paper status so that we can upload the final version via Edas System. We look forward to hearing from you, Sir.

Thank you very much.

Best regards,
Sarifah Putri Raflesia
