Secara keseluruhan, penulis belum menyajikan artikel dengan baik dan benar. Disarankan penulis untuk membaca panduan yang ada di template dan mengikutinya secara detail. Susunan artikel terkesan terburu-buru, bagian pendahuluan banyak kata-kata yang tidak lazim ada disebuah artikel seperti tesis. Jika memang artikel ini adalah saripati dari tesis maka seharusnya tidak muncul lagi kata-kata tesis. Dan artikel dari mahasiswa master diharapkan bisa lebih baik lagi.

Abstrak, Abstrak berisi uraian singkat tentang latar belakang penelitian, metodologi penelitian yang digunakan dan hasil yang dicapai.

Pendahuluan, Bagian pendahuluan ini mengulas tentang latar belakang penelitian dan dasar teori. Pada latar belakang, titik beratkan pada permasalahan pokok yang melatarbelakangi penelitian. Kemudian arahkan pada argumen mengapa penelitian ini perlu untuk dilakukan. Di akhir bagian pendahuluan ini ungkapkan kalimat penegasan tentang tujuan penelitian. Bagian kedua dari pendahuluan adalah Dasar Teori. Dasar teori menjabarkan teori-teori yang digunakan, rumus-rumus matematis jika ada, dan temuan fakta baru dari artikel jurnal yang telah diungkapkan oleh penelitian sebelumnya baik oleh penulis sendiri ataupun oleh peneliti lain.
