I hope the editor still consider our paper.

this is our revision of our paper #13159 title "Utility

1. comment on You should improve your analyzing and also present the comparison between performance of your approach and other researches. The "result and discussion" section reports the most important findings, including analysing results as appropriate.

We already add some information regarding about our results.

2. comment on All references must be cited in your article, and CITATION ORDER is SEQUENTIAL [1], [2], [3], [4],

We already change it into that format.

3. comment on The references must be integrated also with not less than two papers published on IAES's Journals. You can find the issued at:

- <http://journal.portalgaruda.org/index.php/eei> (please use "Search" at menu "Journal Content" in right side of the site)

- <http://section.iaesonline.com/index.php/ijeai> (please use "Search" at menu "Journal Content" in right side of the site)

- <http://iaesjournal.com> (please use "Search Paper" facility in right top side of the site)

we already add some references from those sites on IAES journals.

4. comment on Figures and Tables.

Relation of Tables or Figures and Text: Because tables and figures supplement the text, all tables and figures should be referenced in the

text. Authors also must explain what the reader should look for when using the table or figure. Focus only on the important point the reader should draw from them, and leave the details for the reader to examine on her own.

Figures:

- a. All figures appearing in article must be numbered in the order that they appear in the text.
- b. Each figure must have a caption fully explaining the content
- c. Figure captions are presented as a paragraph starting with the figure number i.e. Figure 1, Figure 2, etc.
- d. Figure captions appear below the figure
- e. Each figure must be fully cited if taken from another article
- f. all figures must be referred to in the body of the article

Tables:

- a. Material that is tabular in nature must appear in a numbered captioned table.
- b. All tables appearing in article must be numbered in the order that they appear in the text.
- c. Each table must have a caption fully explaining the content with the table number i.e. Table 1, Table 2, etc.
- d. Each column must have a clear and concise heading
- e. Tables are to be presented with single horizontal line under: the table caption, the column headings and at the end of the table.
- f. All tables must be referred to in the body of the article
- g. Each table must be fully cited if taken from another article

we already revised the tables and fully cited all tables.

Thank you very much for your consideration
