Sir,

The last author doesn't have a family name, he has single name and it's common in Indonesia.

Thank you

Dear Dr. Sahim:

Thank you for submitting the final version of your paper. An author's name must include the first and last names. The 3rd author's name seemed to be incomplete.

Thank you!

Dr. Sahin:

Your submission "EXPERIMENTAL STUDY OF CONVECTIVE HEAT TRANSFER OF ALUMINA-COEDI NANOFIUIDS IN TRIANGULAR CHANNEL WITH UNIFORM HEAT FLUX" for Frontiers in Heat and Mass Transfer (FHMT) has been accepted for publication, and it is now necessary to format the submission according to our formatting guidelines:

1. Delete the superscript s after authors' name and before your affiliation because all authors are from the same institution.
2. There must be a space after any punctuation
3. When a paper is cited in the text, only the last names of authors are necessary and the initials should be deleted.
4. Remove the large blank space at the bottom of Page 3 and 4
5. Please see No. 9 of the [checklist](#) and any of our published papers for the correct format of References:
 - a. Do not use hanging for the first line
 - b. Type authors' last names first, followed by their initials
 - c. DOIs must be hyperlinked
 - d. Leave a line space between the DOI and the next reference.
 - e. The two columns on the last page are the same height.

Review our Formatting specifications for the final revision here: http://www.mechassiscentral.org/journals/index.php/Heat_Mass_Transfer/about/submissions.

Once you have completed the formatting for your paper please follow these steps to submit it:

1. Visit your article submission page (URL below).
2. Log into the journal and click on editing.
3. Find the copyediting section and upload your final revision.
4. Click on Review MUYALADA to check indexing information for completeness and accuracy. All authors' information and order must match the manuscript.
5. Pay the mandatory Article Processing Charge (APC).
