Dear Dr. Fitri Maya Puspita,

After a rigorous review, with pleasure, we would like to inform you that your paper with ID/Title: #1570870679 ('Information Services Financing Scheme Model with Marginal Costs and Supervisory Costs for Modified Cobb-Douglas and Linear Utility Functions') for 2022 5th ISRITI has been **accepted** to be presented in The 2022 5th International Seminar on Research of Information Technology and Intelligent Systems (ISRITI) - 2022 5th ISRITI which will be held in Virtual (Yogyakarta, Indonesia) during 8-9 DECEMBER 2022.

The blind review process has already been taken from three reviewers and the result is attached to this email. You have to revise your paper aligned with the review results.

The reviews are below or can be found at [1570870679](#).

Please take some steps below.

1. Please register and make a payment to the conference through the EDAS system.
2. Please download the Camera-Ready of IEEE Full Paper A4 Template from the website.
 - o DOC template: <https://isriti.akakom.ac.id/template/Conference-template-A4-IEEE.doc>
 - o LATEX template: https://isriti.akakom.ac.id/template/conference-latex-template_IEEE.zip
3. Send the revised full paper in the IEEE PDF eXpress format (see Instructions for IEEE PDF eXpress on the link: <https://isriti.akakom.ac.id/#pdf-express>)
4. Please be aware, according to the IEEE regulation the maximum similarity score has to be less than 30% using iThenticate.
5. Login to EDAS, and fill in the Electronics Copyright Form (ECF) and Presenter.
6. Since the global pandemic, the 2022 5th ISRITI will be conducted as a VIRTUAL conference (online)

Please email us if you have any questions related to 2022 5th ISRITI.

Review 1

Technical content and scientific rigour: Rate the technical content of the paper. (e.g. completeness of the analysis or simulation study, thoroughness of the treatise, accuracy of the models, etc), its soundness and scientific rigour.

Average (3)

Novelty and originality: Rate the novelty and originality of the ideas or results presented in the paper.

Below Average (2)

Quality of presentation: Rate the paper organization, the clearness of text and figures, the completeness and accuracy of references

Below Average (2)

Relevance and timeliness: Rate the importance and timeliness of the topic addressed in the paper within its area of research.

Below Average (2)

Recommendation: How do you rate your recommendation?

Likely Reject. (1)

Detailed comments: Please justify your recommendation and suggest improvements in technical content or presentation.

- English needs to be revised. There is no consistency in writing IDR and Rp.
- Recheck the template paper for writing the subsection, equation, and figure
- The paper lacks substance and has no significant insight or revelation of no significant contribution
- The analytical results shown in the paper are a bit disappointing without any real comparison to other available techniques.
- There is no justification for these models

Review 2

Technical content and scientific rigour: Rate the technical content of the paper. (e.g. completeness of the analysis or simulation study, thoroughness of the treatise, accuracy of the models, etc), its soundness and scientific rigour.

Good (4)

Novelty and originality: Rate the novelty and originality of the ideas or results presented in the paper.

Good (4)

Quality of presentation: Rate the paper organization, the clearness of text and figures, the completeness and accuracy of references

Good (4)

Relevance and timeliness: Rate the importance and timeliness of the topic addressed in the paper within its area of research.

Average (3)

Recommendation: How do you rate your recommendation?

Possible Accept. (2)

Detailed comments: Please justify your recommendation and suggest improvements in technical content or presentation.

This study aims to establish information service financing scheme model with three financing schemes, namely flat fee, usage-based and two-part tariff for Internet Service Providers (ISP) based on heterogeneous consumer satisfaction levels.

1. Overall very good but The References are insufficient to cover the idea and deliver the results satisfactorily.
2. Adding some images of the simulation during the implementation and design of the program will explain more features of the work to the readers.

Review 3

Technical content and scientific rigour: Rate the technical content of the paper. (e.g. completeness of the analysis or simulation study, thoroughness of the treatise, accuracy of the models, etc), its soundness and scientific rigour.

Average (3)

Novelty and originality: Rate the novelty and originality of the ideas or results presented in the paper.

Average (3)

Quality of presentation: Rate the paper organization, the clearness of text and figures, the completeness and accuracy of references

Average (3)

Relevance and timeliness: Rate the importance and timeliness of the topic addressed in the paper within its area of research.

Average (3)

Recommendation: How do you rate your recommendation?

Possible Accept. (2)

Detailed comments: Please justify your recommendation and suggest improvements in technical content or presentation.

Abstract sentences should emphasize the research background in concise and descriptive sentences. Do not include several generic words as this will confuse the reader and cause confusion.

Must compare with related works previously, then could describe the gap between them as to become authors novelty.

We couldn't find anything about the discussion. We suggest developing more deeply the discussion about derivative of the formula (have to focus on analysis and interpretation) on the results. Please describe how to support your explanation and make them clear.

Mostly, the result paragraphs are not coherent, and existing previous works were not explained properly. Also, it required improvement.

There are still many mistakes in writing in English and grammatical.

Use the template format correctly.

I hope these will drive a contributory direction to your manuscript. Thank you.
