---

Dear Editors,

I have just done a Final Submission of our manuscript - JSTARS-2012-00570.R1 Detection of Localized Surface Uplift by Differential SAR Interferometry at the Hangingstone Oil Sand Field, Alberta, Canada. I made mistake that I didn't check our graphic files using Graphic Checker tool before submission. I checked , the graphic files after submission, and all files are needed to improve their quality.

I could not re-submit or edit all files via the Manuscript Central site. What should I do?

Please kindly advise me on this problem.

Sincerely,  
Mokhamad Yusup Nur Khakim

## RE: IEEE JSTARS-2012-00570.R1 Manuscript Decision

Dear Dr. Khakim:

When preparing your final material for publication, you may consider the following related recent references to further expand your introductory state of the art section:

Long-and Short-Term Deformation Monitoring of Santorini Volcano: Unrest Evidence by DInSAR Analysis  
Papageorgiou, Elena ; Foumelis, Michael ; Parcharidis, Issaak  
IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing,  
Volume: 5 , Issue: 5, 2012 , Page(s): 1531 - 1537

Ground Deformation Retrieval Using Quasi Coherent Targets DInSAR, With Application to Suburban Area of Tianjin, China  
Tao, Li ; Zhang, Hong ; Wang, Chao Y. ; Tang, Yi-Xian  
IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing,  
Volume: 5 , Issue: 3, 2012 , Page(s): 867 - 873

I am pleased to inform you that

JSTARS-2012-00570.R1 Detection of Localized Surface Uplift by Differential SAR Interferometry at the Hangingstone Oil Sand Field, Alberta, Canada

has been accepted for publication in the IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing. This manuscript has been accepted as a Regular paper and will be published in the corresponding issue.

Below may be comments of the J-STARs Editorial Review Board, which you should consider when returning your manuscript in its final form. Any attached files that may be referenced with these comments can be accessed in a copy of this decision letter located in your Author Center on ScholarOne Manuscripts.

The final version of your manuscript must comply with IEEE Periodicals requirements for text and graphics processing. Detailed information regarding the format of your final submission can be found here <http://www.ieee.org/web/publications/authors/transjnl/index.html>.

All JSTARS papers that are over 6 pages in the final published form will incur page charges of \$175.00 per page for pages 7 and beyond. By submitting your final files to ScholarOne Manuscripts you are agreeing to any applicable page charges your paper may incur. Page charges are mandatory and non-negotiable. If there is any question about the length of your paper please contact the Administrator prior to submitting your final files. All charges will be billed after the paper has appeared in publication.

To submit final files, please log into your author center and click the "awaiting final files" queue. Please do not submit any files via email, post, or fax.

In addition to uploading your files, please check that the author-supplied data, such as contact and co-author information in step 3 of the final submission process, is correct and complete. **FAILURE TO ENTER COMPLETE AUTHOR AND CO-AUTHOR INFORMATION IN THE DESIGNATED AREA ON SCHOLARONE MANUSCRIPTS MAY RESULT IN PUBLISHING DELAYS.**

The following items are required before your paper will be processed for publication. Please be sure that all files are the final version, and that each item in the list below is included and submitted in a single session. Once you make your final submission, you will not be able to add or change files until you receive your galley proofs from IEEE.

Kindly upload as soon as possible:

- (1) A pdf version of the final manuscript.
- (2) A Tex, Latex, or Microsoft Word application file that exactly matches the pdf file.
- (3) A digital source file of the artwork in Word, Tiff, Postscript, EPS, Excel or Powerpoint.
- (4) Please provide author biographies (required), and photographs if available.

\*Please make sure that all final files have unique file names in order for them to transfer successfully to IEEE\*

Please note that a pdf is not sufficient for publication. We must receive the source files of your text and figures to process your paper.

If you have any questions regarding the final submission please contact:

Alison Larkin  
[jstars-editor@ieee.org](mailto:jstars-editor@ieee.org)

Please submit all final files within 6 weeks of acceptance. Lengthy delays in submitting final materials may result in the paper needing to be sent out for additional review.

Thank you for your contribution, and I look forward to seeing your paper in the publication.

Sincerely,

Prof. Jocelyn Chanussot  
Editor, IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing
