Phytochemical profile and toxicity of extracts from the leaf of *Avicennia marina* (Forssk.) Vierh. collected in mangrove areas affected by port activities

Dear Dr Rozirwan,

The PDF for your above referenced manuscript has been built and requires your approval. If you have already approved the PDF of your submission, this e-mail can be ignored.

Please review the PDF carefully, before approving it, to confirm it appears as you expect and is free of any errors. Once approved, no further changes can be made.

To approve the PDF, please:

* Log into Editorial Manager as an author at: <https://www.editorialmanager.com/sajb/>.

* Click on the folder 'Submissions Waiting for Author's Approval' to view and approve your submission PDF. You may need to click on 'Action Links' to expand your Action Links menu.

* Confirm you have read and agree with Elsevier's Ethics in Publishing statement by ticking the relevant box.

Once the above steps are complete, you will receive an e-mail confirming receipt of your submission.

We look forward to receiving your approval.

Kind regards,
South African Journal of Botany

Journal: South African Journal of Botany

Dear Rozirwan Rozirwan,

Your submitted manuscript is currently under review. The peer review process can take a while, so we are trying out a new service that allows you to track the peer review status of your submission in more detail. You can access the service here:

<https://track.authorhub.elsevier.com?uuid=d36b3df5-2037-4d52-bdd8-0f380ed0a1d3>

This page will remain active until the peer review process for your submission is completed. You can visit the page whenever you like to check the progress of your submission. The page does not require a login, so you can also share the link with your co-authors.

We hope you find this service useful.

Kind regards,

Journal Office of South African Journal of Botany

Elsevier B.V.

Please note this is an automated message and will only be sent once.

Manuscript Number: SAJB-D-21-02068

Phytochemical profile and toxicity of extracts from the leaf of *Avicennia marina* (Forssk.) Vierh. collected in mangrove areas affected by port activities

Dear Dr Rozirwan,

Thank you for submitting your manuscript to South African Journal of Botany.

I have completed my evaluation of your manuscript. The reviewers recommend reconsideration of your manuscript following major revision. I invite you to resubmit your manuscript after addressing the comments below. Please resubmit your revised manuscript by Jul 12, 2022.

When revising your manuscript, please consider all issues mentioned in the reviewers' comments carefully: please outline every change made in response to their comments, highlight all changes you make in the revised manuscript and provide suitable rebuttals for any comments not addressed. Please note that your revised submission may need to be re-reviewed.

To submit your revised manuscript, please log in as an author at <https://www.editorialmanager.com/sajb/>, and navigate to the "Submissions Needing Revision" folder.

South African Journal of Botany values your contribution and I look forward to receiving your revised manuscript.

Kind regards,

Ilze Vermaak
Associate Editor
South African Journal of Botany

Reviewer comments:

Reviewer: The authors have made a great effort to identify the phytochemical profile of mangroves grown nearby the port where is frequently affected by adverse environmental impacts. The attained results are of interest for further discovering the potential bioactive compounds from this plant. However, the current form of paper has not been well documented and organized. The authors are requested to make critically revise and edit following the comments and suggestions (see details in pdf file):

1. Materials and Methods must be improved, some methods such as leaves sampling, environmental parameter sampling, hatching process, etc... should proved more information
2. Provide the method how to calculate IC50
3. Add one subsection as "Statistical analyses" or "Data analyses", how did the authors calculate the data as presented in Tables and Figs

4. Subsections 2.4 and 2.5 should be joined in one and the methods should be briefly narrated
5. Results part should be reworded and rearranged, consider moving the subsections 3.1 and 3.2 into the Materials and Methods part, then Table 3 should change as Fig is better
6. Discussion part must be improved. In my opinion, the chemical profile of mangroves with port activities identified in this study should be compared to other studies, for example, how about the chemical profile of mangroves grown in non-port activities, or nature or non-polluted areas.
7. English language including grammar errors, spelling, format must be rechecked and edits (see pdf file).
8. All cited references in the text must be listed in the references part and vice versa
9. All comments and suggestions in details were directly tracked in pdf file

MethodsX (optional)

We invite you to submit a method article alongside your research article. This is an opportunity to get full credit for the time and money spent on developing research methods, and to increase the visibility and impact of your work. If your research article is accepted, we will contact you with instructions on the submission process for your method article to MethodsX. On receipt at MethodsX it will be editorially reviewed and, upon acceptance, published as a separate method article. Your articles will be linked on ScienceDirect.

Please prepare your paper using the MethodsX Guide for Authors: <https://www.elsevier.com/journals/methodsx/2215-0161/guide-for-authors> (and template available here: <https://www.elsevier.com/MethodsX-template>) Open access fees apply.

Data in Brief (optional):

We invite you to convert your supplementary data (or a part of it) into an additional journal publication in Data in Brief, a multi-disciplinary open access journal. Data in Brief articles are a fantastic way to describe supplementary data and associated metadata, or full raw datasets deposited in an external repository, which are otherwise unnoticed. A Data in Brief article (which will be reviewed, formatted, indexed, and given a DOI) will make your data easier to find, reproduce, and cite.

You can submit to Data in Brief when you upload your revised manuscript. To do so, complete the template and follow the co-submission instructions found here: www.elsevier.com/dib-template. If your manuscript is accepted, your Data in Brief submission will automatically be transferred to Data in Brief for editorial review and publication.

Please note: an open access Article Publication Charge (APC) is payable by the author or research funder to cover the costs associated with publication in Data in Brief and ensure your data article is immediately and permanently free to access by all. For the current APC see: www.elsevier.com/journals/data-in-brief/2352-3409/open-access-journal

Please contact the Data in Brief editorial office at dib-me@elsevier.com or visit the Data in Brief homepage (www.journals.elsevier.com/data-in-brief/) if you have questions or need further information.

Editor comments:

Reviewer #1: The authors have made great efforts to revise and edit following the comments and suggestions of the Reviewer. The revised version is fine and clear now. However, there are still some minors need to be corrected. Some corrections and comments have been directly made and tracked in the word file.
