Thank you for submitting your manuscript to International Journal of Biological Macromolecules. I have completed the review of your manuscript and a summary is appended below. The reviewers recommend reconsideration of your paper following major revision. I invite you to resubmit your manuscript after addressing all reviewer comments.

When resubmitting your manuscript, please carefully consider all issues mentioned in the reviewers' comments, outline every change made point by point, and provide suitable rebuttals for any comments not addressed.

To submit your revised manuscript:

- Log into EvisE® at: http://www.evisE.com/evisE/faces/pages/navigation/NavController.jspx?JRNL_ACR=JBIOMAC
- Locate your manuscript under the header 'My Submissions that need Revisions' on your 'My Author Tasks' view
- Click on 'Agree to Revise'
- Make the required edits
- Click on 'Complete Submission' to approve

What happens next?

After you approve your submission preview you will receive a notification that the submission is complete. To track the status of your paper throughout the editorial process, log in to EvisE at: http://www.evisE.com/evisE/faces/pages/navigation/NavController.jspx?JRNL_ACR=JBIOMAC.

Enrich your article to present your research with maximum impact. This journal supports the following [Content Innovations](#):

We invite you to convert your supplementary data (or a part of it) into an additional journal publication in Data in Brief, a multi-disciplinary open access journal. Data in Brief articles are a fantastic way to describe supplementary data and associated metadata, or full raw datasets deposited in an external repository, which are otherwise unnoticed. A Data in Brief article (which will be reviewed, formatted, indexed, and given a DOI) will make your data easier to find, reproduce, and cite.

You can submit to Data in Brief via the %JOURNALFULLTITLE% submission system when you upload your revised %JOURNALFULLTITLE% manuscript. To do so, complete the template and follow the co-submission instructions found here: www.elsevier.com/dib-template. If your %JOURNALFULLTITLE% manuscript is accepted, your Data in Brief submission will automatically be transferred to Data in Brief for editorial review and publication.

Please note: an open access Article Publication Charge (APC) is payable by the author or research funder to cover the costs associated with publication in Data in Brief and ensure your data article is immediately and permanently free to access by all. For the current APC see: <https://www.elsevier.com/journals/data-in-brief/2352-3409/open-access-journal>

Please contact the Data in Brief editorial office at dib-me@elsevier.com or visit the Data in Brief homepage (www.journals.elsevier.com/data-in-brief/) if you have questions or need further information.

I look forward to receiving your revised manuscript as soon as possible.

Kind regards,

Dr. Collins
Editor

The manuscript has been edited considering all comments from the reviewers. It could be accepted after some minor corrections for better clarification.

1. All tables and figures must be self-explained. All abbreviations used must be shown under the tables.
2. For table 3, it's fine to present as is. However, the most commonly seen style is to show the mean values of the responses accompanied with regression and ANOVA coefficients. Please check other papers for references.
3. Figure 4 is not clear.

-Reviewer 2

- 1. please ensure figure quality and labels are of the required standard.
2. check language
3. this recent new chitosan modification should be mentioned

International journal of biological macromolecules Volume [141](#), 1 December 2019, Pages 936-946

MethodsX (optional)

We invite you to submit a method article alongside your research article. This is an opportunity to get full credit for the time and money you have
