Dear Colleague,

I am Nirwan Syarif, graduate student in University of Indonesia, Indonesia. I would like to submit paper of our research report for you to review and publish in ITJEMAST.

Thanks in advance.

Nirwan Syarif

Nirwan Syarif

We have sent your manuscript for full peer review. We expect to get the result back within 2-3 weeks. If it is accepted and all process / corrections / improvements are done within this month, we will publish your work right away.

Please be patient about our process.

Thanks.

BR.

Dear Nirwan Syarif,

Congratulations!

We have received positive review result of your manuscript.

Please consider the following forwarded message as well as the enclosed file for your minor improvement.

- * Please let the Editor-in-Chief know what you have done in improving your manuscript.
- * Please send back the improved work as soon as you can (we expect to publish your work about mid-December for January issue.)
- * Let us know if you have inquiries

Regards
C.Chaiyo

----- Forwarded message -----

Dear Editor in Chief

The manuscript entitled "Direct Synthesis Carbon/Metal Composites for Electrochemical Capacitors Electrode" by Nirwan Syarif and Widayanti Wibowo, is the subject of this review. The aim of this research is to synthesize the carbon/metal composites by using transition metal salts as activator and substrate. Structural changes were analyzed with FTIR, XRD and TEM techniques. Electrical conductivities and electrochemical properties of synthesized composites were investigated.

After review, I found that the results of this research are good enough to publish. Then I recommend this manuscript for publication in "International Transaction Journal of Engineering, Management, & Applied Sciences & Technologies" after authors address in the following issue.

1. In the manuscript title,
" ...Capacitors Electrode" should be changed to " ...Capacitor Electrode"
2. Correct some chemical formulas,
3. Typo errors should be corrected,
4. Key Words must be included,
5. All references must be reformat,
6. Biography should be included.

However, for more correction details, I attach my reviewed file (in Acrobat format or PDF format) namely "NirwanSyarif_Itjemast_2011e_MSword2003_reviewed_by_BW.pdf" within this e-mail.

Best Regards,

Dear Dr. B.Witchayangkoon

Thanks for that opportunity.

Soon after your announcement about our manuscript, we straightly made some corrections.

1. In the manuscript title, " ...Capacitors Electrode" change to " ...Capacitor Electrode". Complete title for manuscript is Direct Synthesis Carbon/Metal Oxide Composites for Electrochemical Capacitors Electrode. We add 'oxide' in the title to emphasis kind of composite

that we have.

2. Correct some chemical formulas. Yes.
3. Typo errors should be corrected. Yes
4. Key Words must be included. Yes
5. All references must be re-formated. Yes
6. Biography should be included. Yes

We also add one author in the list. This addition was made because, in the old day, the Department hadn't mentioned who is the second supervisor. We are very sorry for this and if it is not a problem, may Editor-in-Chief receive it.

I attached this mail with the manuscript and copyright transfer agreement. We hope that we have fulfilled all requirements to publish our manuscript.

Thanks in advance

Nirwan Syarif

Nirwan,

Your article is expected to be online about mid Jan (January 2012 issue). We will let you know.

Thank you.

Regards.

Dr. B.Witchayangkoon,

Thanks for the communication and I am bit late to reply your mail.
But I don't need a change regarding the paper.

Regards
Nirwan Syarif
