Actions	Originality	Significance of Topic	Presentation
completed	Neutral	5 Weak Accept	6 Weak Accept 6

Strengths/Weakness

Minor correction for this paper and be accepted in this conference and congratulation to the author. However there are some changes need to do especially in the formatting where some of the sub-section are not follow the templates. The references also need to review because some of the paper references are out dated. The reviewer also suggest to extend the set of data to support the accurate hypotheses or conclusion.

Contribution/s & Detailed comments

Good and accepted this paper cause follow the format:

1. looks for the limit pages.
2. All the references follow the Journal format.

completed	Accept	8 Weak Accept	6 Weak Accept 6
-----------	--------	---------------	-----------------

Strengths/Weakness

presented the spread of filariasis and determine the vulnerability of area spatially
-can be used to reduce and eliminate filariasis

Contribution/s & Detailed comments

- introduction is sufficient with related citation
- methodology is clearly explained
- result being analyze in detail for several terms/element and well presented
- collected data is not enough to come out with conclusion, should add more
- discussion is critical with main issue being addressed
- used latest research paper
- check figures, some of them are not clear

completed	Accept	8 Weak Accept	6 Weak Accept 6
-----------	--------	---------------	-----------------

Strengths/Weakness

Overall, the contents are good and clearly discussed

Contribution/s & Detailed comments
