3. Payment evidence

Your paper will be published after fulfilling all requirements for publication (strictly follow the guidelines at <http://ijeecs.iaescore.com/index.php/IJEECS/about/editorialPolicies#custom-5>). The presentation of the simulation and/or experimental setup (in the Method section) must be clear and complete in every detail facilitating reproducibility by other scientists. Present a picture of your simulation and/or experimental setup and describe your work clearly. For your information, according to international regulations, the similarity score of camera-ready paper should be less than 25%. A single author is NOT acceptable, and will never publish in this journal. The editor(s) will decide whether or not your camera-ready paper is complete and meets the final guidelines. Please present each reference as completely as possible while adhering to IEEE style (including volume, number, pages, and DOIs). Failing to make a proper revision may lead to the delay of your paper for publication, even may lead to the rejection of your paper.

When you send in all of the above documents and your final paper follows all of the final instructions, your paper will be judged "fully accepted." It will be the date of your paper's acceptance.

We are looking forward to hearing from you

Best Regards,

S. Kadry

In order to cover part of the publication cost, each accepted paper is charged USD 315. This charge is for the first 8 pages, and any published manuscript over 8 pages will incur extra charges of USD 50 per page. Indonesian authors should transfer IDR instead of USD. (Please refer to <https://www.xe.com> for the exchange rate.) We value collaborative papers and do not value papers with a single (sole) author. A. Some parts need to be organized and recycled in several paragraphs. Language needs more attention, in one paragraph there are at least 3 sentences. please add a few more sentences.

B. Change and use English in table 1.

C. Consider removing the out-of-date references and replacing the newest references (in SCOPUS, the papers published within 5 years are used to calculate CiteScore).
