Hello,

Elifita Elifita has submitted the manuscript, "ENDOPHYTIC FUNGI BIODIVERSITY HOSTED BY JAMBU BOL (*Syzygium malaccense* L).Merr&Perry) PLANTS AND THEIR ANTIBACTERIAL ACTIVITY" to [Biodiversitas](#) Journal of Biological Diversity.

If you have any questions, please contact me. Thank you for considering this journal as a venue for your work.

Ahmad Dwi Setyawan

Elfta Elfta, Ms:

We have reached a decision regarding your submission to **Biodiversitas** Journal of Biological Diversity, "Endophytic fungi biodiversity hosted by jambu bol (*Syzygium malaccense* L. Merr & Perry) plants and their antibacterial activity".

Our decision is: Revisions Required

Reviewer A:

1. The authors have prepared the manuscript well, but grammatically it still needs a lot of improvement. Likewise with typos and the role for writing the Latin names of plants and microbes.
2. Some parts of the manuscript need further clarification such as the existence of two types of endophytic fungi with the same species from the same source. There has been no explanation in the discussion why the two isolates are considered different isolates even though they are the same species. This phenomenon should be the subject of an interesting discussion.
3. Some other suggestions for improvement can be seen in the manuscript.

Recommendation: Revisions Required

We have reached a decision regarding your submission to **Biodiversitas** Journal of Biological Diversity, "Endophytic fungi biodiversity hosted by jambu bol (*Syzygium malaccense* L. Merr & Perry) plants and their antibacterial activity".

Our decision is: Revisions Required

Note: Include this comment in your previous revised paper.

Reviewer A:

This paper needs to be written more systematically by combining several tables and figures Found a lot of typos, please check again Need additional explanation from the literature study in the introduction and additional discussion about the prospects of this endophytic fungus and future research Please open the manuscript to find any specific comments Recommendation: See Comments
