Dear Chief Editor,

Thank you for your feedback. I have read the reviewed manuscript and underlined some points that need to be corrected. But I am afraid we will not be able to submit it within 10 days because we have other projects in writing which are also going on. We need around 1 month supposing that by the time we have spare time to focus on this manuscript. I would wait for your confirmation whether we are allowed to do this or not. Thank you in advance for your understanding, Dr.
