

HATHI
THE 5TH INTERNATIONAL
SEMINAR

Bali

JULY 29TH - 31ST, 2016

Proceedings

INTERNATIONAL SEMINAR ON

“Water Resilience in a Changing World”

BALI - INDONESIA, JULY 29TH - 31ST, 2016

INDONESIAN ASSOCIATION OF HYDRAULICS ENGINEERS
Himpunan Ahli Teknik Hidraulik Indonesia

TABLE OF CONTENTS

Forewords	iii
Table of Content.....	v

SUB THEME 1

Water Conservation and Risk and Impact of Extreme Events

Basin conservation, river restoration, reservoir and dam, flood and drought, climate change, urban drainage

1. Water Resilience in A Large Alluvial Fan: Case Study Yahukimo Alluvial Fan	1
<i>Happy Mulia, Supriya Triwiyana, Bagus Kurniawan</i>	
2. Reliability of Hydrological Model Parameters in Representing The Physical Condition of Jiangwan River Basin	11
<i>Christian Alfonsus Liguori, Steven Reinaldo Rusli, Doddi Yudianto</i>	
3. Soil Loss Prediction At The Catchments of Reservoir in Central Java, Indonesia, Using Rusle-GIS Framework	22
<i>Muh. Ramdhan Oliy, Bambang Agus Kironoto, Sunjoto, Bambang Yulistiyanto,</i>	
4. Analysis of Land Cover Change and Its Impact to Surface Runoff within Jakabaring Sub Basin	33
<i>M. Baitullah Al Amin, Sarino, and Reini S. Ilmiaty</i>	
5. The Cause of Giant Spring Depletion in The Rejoso Watershed	44
<i>Wulan Seizarwati, Agus M. Ramdhan, Lambok M. Hutasoit, Heni Rengganis</i>	
6. Developing Bayesian Probabilistic Flash Flood Guidance for Konto River Basin Indonesia	55
<i>Astria Nugrahany</i>	
7. Local Scour Defense Around The Sluice Gate Based on The Gate Operation and Maintenance	66
<i>Nina B. Rustiati, Vera W. Andiese</i>	
8. Changes to Flow and Turbulence Caused By Hyper-Concentrated Sediment Laden Flow Over Square Ribs Roughness	75
<i>Liany Hendratta, Sukarno, Terunori Ohmoto, Djidon Watania, A.K.T. Dundu</i>	
9. The Development of River Performance Assessment Method	84
<i>Agus Hari Wahyudi, Suripin, Suharyanto</i>	
10. Determination of River Bed Stabilization Structures Placement Based on Satellite Data	97
<i>Santosa Sandy Putra, Bobby Neilzon</i>	

11. Challenges to Achieve Water-Related Disaster Risk Reduction Through Proper Development of The Infrastructures in Bangladesh	108
<i>Kazumitsu Muraoka, Khondaker Khalequzzaman</i>	
12. The Relationship Between The Manning Roughness Coefficient and Form the Bed Configuration of Non Cohesive Alluvial Channels	119
<i>Hari Wibowo, Suripin, Kodoatie, Isdiyana</i>	
13. The Seismic Analysis of An Earth-Fill Dam on Thick Liquefiable Ground and Countermeasures Against A Large Earthquake	130
<i>Tomoo Kato, Takeshi Honda, and Shigehide Kawato</i>	
14. A Genetic Algorithm Model for Optimization of Tank Model Parameters in Keser Sub-Watershed	141
<i>Widandi Soetopo, Lily Montarcih Limantara, and Annisa Akalily</i>	
15. Efficient Sediment Flushing for Sustainable Sediment Management in Wlingi and Lodoyo Reservoirs	151
<i>Fahmi Hidayat, Harianto, Pitojo Tri Juwono, Agus Suharyanto, Alwafi Pujiraharjo, Arief Satria Marsudi</i>	
16. Finite Difference Numerical Scheme for Simulating Dam Break Flow	162
<i>Mohammad Farid, Bagus Pramono Yakti, Akbar Rizaldi, and Mohammad Bagus Adityawan</i>	
17. Soil Grouting Method Alternative to Preserve Heritage Dams from Collapse: Kedung Uling Dam, Cengklik Dam and Lalung Dam	173
<i>Y. Chandra Sari, Sudarsono, Dwiyanto Joko Suprpto</i>	
18. Improving Modified ICOLD Method with Loss of Life Index for Dam Safety Risk Assessment in Indonesia	184
<i>Anto Henrianto, R.W Triweko</i>	
19. Fractal Characteristic Analysis of Watershed Based on Geographical Information System	194
<i>I Gede Tunas, Nadjadji Anwar, Umboro Lasmino</i>	
20. Flood Control Management in The Brantas River Basin	205
<i>Hermien Indraswari, Oky Widya Wirabuana, Agung Wicaksono</i>	
21. Drainage Impact on Subsidence and Carbon Emissions in Peatland	215
<i>L. Budi Triadi</i>	
22. Simulation of River Pond Scenario on Reducing The Discharge Peak of Ngotok River	225
<i>Gilang Idfi, Wasis Wardoyo</i>	
23. Flood Forecasting Map of Code River in Yogyakarta	236
<i>Titiek Widayarsi and Nizar Achmad</i>	
24. Towards Responsive Flood Control Measures in The Philippine Setting	246
<i>Jessie C. Felizardo</i>	

25. The Effect of Retarding Basin on Flood Management in The Upper Citarum River	257
<i>Yadi Suryadi, Febya Nurnadiati, and Indratmo Soekarno</i>	
26. Evaluation and Mitigation of The Bogel River Flood, Blitar, Province of East Java, Indonesia	268
<i>Aris Yhadianto, Ulie M.Dewanto</i>	
27. Integrated Flood Management Plan of the Huong river basin	279
<i>Le Dien Minh</i>	
28. Flood Mitigation Using GIS and Hydraulic Modelling of Urban Agriculture District Pulkerto	287
<i>Febrinasti Alia, Darma Budhy, A. Bastari Yusak, R.A Marlina Sylvia</i>	
29. Rainfall-Run Off Simulation and The Associated Extent of Flooding in The South of Bandung, Indonesia	298
<i>Tri Annisa Fajri, Poerbandono, Djoko Abi Suroso, Miga Magenika Julian</i>	
30. Hydrological Drought Index Using River Discharge Computed from TRMM Rainfall Satellite Data	305
<i>Waluyo Hatmoko, Radhika</i>	
31. Flood Early Warning System in Bangladesh As Vital Non-Structural Measures.....	315
<i>Hossain Md. Amirul</i>	
32. Determination of Sensitive Area to Peak Flow within a Watershed	325
<i>Anthony Raymond Kemur, Robert Verhaeghe, Suharyanto, Suripin</i>	
33. Physical Model of Flood Propagation Around Buildings Due to Dambreak..	336
<i>Vitta Pratiwi, Hadi Kardhana, M. Syahril B.K</i>	
34. Study on Effectiveness of Diversion Tunnel from Ciliwung River to East Flood Way in Decreasing Flood Water Level.....	347
<i>Chairunnisa, Agustin Purwanti, Anis Adiana Pratiwi, Gea Alif Hamzah</i>	
35. Jakarta Flood Hazard Modeling Framework: The Flood Event of March 2016	355
<i>Maulina Indriyani, Aditya Riski Taufani, Jan Jaap Brinkman, Geert Prinsen, Tarasinta Perwitasari, Muchni</i>	
36. Effectiveness of Hypothetic Retention Ponds Simulation on The Integrated Flood Management System Case Study: Saddang Watershed, South Celebes, Indonesia	366
<i>Evi Anggraheni, Dwita Sutjiningsih</i>	
37. Analysis of Backwater Due to Kalanganyar Shortcut in Pasuruan.....	377
<i>Muhammad Hafizh Imaaduddin, Tatas</i>	

38. Catchment Area Management for Sustainable Paselloreng Dam in Connection with The Global Climate Change	383
<i>Iskandar Rahim, Subandi, Sumardji, Muhammad Akil, Anshar, Mustafa, Tampang, Muhammad Hasbi, M. K. Nizam Lembah, Arnold. M. Ratu, Agus Hasanie</i>	
39. Vulnerability of Water Resources Due to Climate Change in Batang Regency	394
<i>Suseno Darsono, Ronny Sutrisna, Ratih Pujiastuti, Susilowati</i>	
40. Rasionalization of Rainfall Station Network in Bengawan Solo River Basin.....	405
<i>Y. Chandra Sari, Fisnu Yudha Pramono, Suripin</i>	
41. Projected of Rainfall in Mahakam River Basin Based on Global Circulation Models (GCM)	416
<i>Mislan and Kadek Subagiada</i>	
42. Impacts of Climate Change/ Variability on The World'S Lakes: A Case Study of Lake Urmia	427
<i>Alireza Salamat</i>	
43. Analysis of Runoff Coefficients Against High of Monthly Rainfall to The Design Criteria of 'Embung' in Semiarid Region.....	436
<i>Denik Sri Krisnayanti, Wilhelmus Bunganaen</i>	
44. Comparison of Ground Stations and GPCC Rainfall Data Set Case Studies: Citarum Basin.....	446
<i>Levina, Wanny K Adidarma, Hany Agustiani</i>	
45. Evaluation of Pumping Operation System Under Daily Basis Rainfall.....	452
<i>Obaja Triputera Wijaya, Utari W., Doddi Y</i>	
46. The Use of Rainfall Simulator in The Modelling of Rainfall-Runoff on A Paving Block Surface	461
<i>Laksni Sedyowati, Eko Indah Susanti</i>	
47. Analyses on Water Cycle and Land Subsidence for Semarang City and Neighboring Area, Central Java, Indonesia.....	471
<i>Ni Made Sumiarsih, Nagata Hitoshi, Ide Yuji, Morishita Kanehiro, Shimizu Hiroshi</i>	
48. Potential Mapping of Coastal Inundation in Bali Island	482
<i>Suprpto, C.N.R. Nugroho, Hadisantosa, Sutanto M.H., Leo E. Sembiring</i>	
49. The Impact of Bali Mandara Toll Road Construction on The Surrounding Coastal Environment	493
<i>Sulaiman, D.M., M.H. Setiawan, and M. R. Nugraha</i>	
50. Analysis of Inundation Mitigation Using SWMM (Storm Water Management Model)	504
<i>Yang Ratri Savitri</i>	

51. Individual Polders as an alternative to flood control in the Center of Padang City Goverment at Air Pacah.....	515
<i>Zahrul Umar, Bambang Istijono, Syafril Daus, Rifda Suryani,</i>	
52. Arrangement in Flood Control and Water Quality in Urban Drainage System : Case Study Kali Wonorejo Surabaya.....	526
<i>Minarni N. T., Novirina H., Iwan W., and Pancawati D.</i>	
53. Building with Nature – Indonesia; Towards A Sustainable Protection of Mangrove Coasts.....	532
<i>Winterwerp, J.C., Wilms, T., Van Wesenbeeck, B.K., Cronin, K., Tonneijck, F, Van Eijk, P., Van Thiel de Vries, J.</i>	
54. Tsunami Wave Height and Velocity Reduction by Coastal Forest Canopy	542
<i>Novi Andhi Setyo Purwono, Nizam, Triatmadja, R</i>	
55. National Capital Integrated Coastal Development - Stage A: An Adaptive Design, Its Challenges and Opportunities	554
<i>Dadang Muhamad Yahya, Ferdinanto</i>	
56. Tsunami Run-Up on Sloping Beach Based on Dam Break System.....	565
<i>Benazir, Radianta Triatmadja, Adam Pamudji Rahardjo, and Nur Yuwono</i>	
57. Wave Predictions and Deformation Along Makassar Coast	575
<i>Frans Rabung*, M. Saleh Pallu, M. Arsyad Thaha, and Achmad B. Muhiddin</i>	
58. Scouring Characteristic Around Structure Due to Wave Current.....	585
<i>Oki Setyandito, Juliastuti, P. Simon Sihombing, Irpan Hidayat</i>	

SUB THEME 2

Water Security for All

Water conflict, water supply and distribution, water pollution and sanitation, water-food-energy nexus

59. Effect Cropping Schedule for Water Irrigation Efficient	595
<i>Tamrin Rahman</i>	
60. Study of Water Resources Availability and Water Supply Needs in Mebidangro North Sumatera Province Indonesia	608
<i>Makmur Ginting</i>	
61. Mahakam River as A Potential Raw Water Source on Regional Basis for Balikpapan, Samarinda and Kutai Kartanegara Area.....	619
<i>Alimudin, Hasyim Saleh Daulay</i>	
62. Klambu Kudu Water Distribution Canal for Semarang City.....	630
<i>Ni Made Sumiarsih, Djoko Legono, Robert J. Kodoatie</i>	
63. An Assessment for Water Supply from Rawa Biru (Blue Lake), Merauke, Papua	638
<i>Elisabeth Veronika Wambrauw, Happy Mulya</i>	
64. The Development of Concrete Filter for Drinking Water Filtration	648
<i>Rizaldi Maadji, Radianta Triatmadja, Fatchan Nurrochmad, and Sunjoto</i>	

65. Study in Developing of Urban Water Security Dimension in Indonesia.....	659
<i>Jane E. Wuysang, Robertus Wahyudi Triweko, Doddi Yudianto</i>	
66. Optimization of Water Use in Delta Brantas Irrigation Area to Improve Water Supply Insidoarjo	665
<i>Mona Shinta Safitri, Nadjadji Anwar</i>	
67. Determining The Location of The Floodgates on The Mixing of Brackish Water in Tambak Irrigation	676
<i>Dian Noorvy Khaerudin, Edyson</i>	
68. Optimization Model for Cropping Pattern Using Linear Programming: Case Study of Rambut Irrigation in Tegal District, Central Java Province..	684
<i>Dhemi Harlan, Dina Septyana, Winskayati</i>	
69. The Development of Numerical Model for Sea Current Energy Site Selection in Indonesia	695
<i>Surya Hermawan</i>	
70. Implementation of Decision Support System to Determine Cropping Pattern in Irrigation Operation	706
<i>Murtiningrum, Sudjarwadi, Rachmad Jayadi, Putu Sudira</i>	
71. An Introduction of Simulation Model for Water, Energy, and Food Nexus ...	717
<i>Albert Wicaksono, Gimoon Jeong, Doosun Kang</i>	

SUB THEME 3

Water Governance and Partnership

*Water council, water governance, community based/drived activity,
public private partnership*

72. Water Resources Management of Bangladesh Potentials and Problems	727
<i>Khalequzzaman, K., Hossain Md. Amirul</i>	
73. Water Resources Modelling Framework for Indonesia.....	738
<i>Irfan Sudono, Maulina Indriyani, Radhika Radhika, Wulan Seizarwati, Neeltje Goorden, and Daniel Tollenaar</i>	
74. Post Investment Evaluation of The Cacaban Rehabilitation Project in Central Java Province.....	749
<i>Putri Arumsari, Juliastuti</i>	
75. Creation and Experimentation of Narbo IWRM Indicator.....	757
<i>Koichiro Omoto, Tadashige Kawasaki, Kenji Komaki, Kentaro Kido</i>	
76. Smart Water Management Through Coordinated Operation of Multi-Water Facilities in The Cisangkuy River Basin, Indonesia	767
<i>Ick Hwan Ko, YJ Kim, TW Kim, W Putuhena, I Sudono, SS Lee, SW Kim</i>	
77. Historical Efforts on Development of Water Resources for Lower Solo Rivers	777
<i>Y. Chandra Sari, Junichi Fukuwatari</i>	

78. Risk Management of Dam Failure in Brantas and Bengawan Solo River Basins	788
<i>Marturiawan Kristyono Putro, Titik Indahyani, Didih Hermawan</i>	
79. Challenges in Improving Quality of Life and Restoring Cikapundung River Through Community Empowerment.....	799
<i>Yudianto, D., Susanti, I., Roy, A.F., Karyadi, Y., Widjaja, G.P., Nugraheni, S., Suroso, P.C., Putri, F.E.</i>	
80. The Motion for Rainwater Management in Household to Improve Water Resilience in A Changing World.....	810
<i>Susilawati and Nisanson</i>	
81. Public Participation in Water-Related Flood Mitigation as Inexpensive Early Warning System.....	818
<i>Reni Mayasari, Mouli De Rizka Dewantoro</i>	
82. Restoration of Cikapundung River.....	826
<i>Yudha Mediawan, Dwi Aryani Semadhi Kubontubuh, R. Yayat Yuliana, Devi Kumalasari</i>	
83. SI WAMI: A Software System to Determine Water Availability of Main Irrigation Intakes in Indonesia.....	837
<i>Grashoff, P.S., Sudono, I., Ahyadi, H., Tollenaar, D., Diest, W.J. van, Brinkman, J.J.</i>
