Dear Mr Erwin,

It is my great pleasure to inform you that your paper is accepted and will be published on forthcoming issue of the International Journal of Electrical and Computer Engineering (IJECE), a Scopus indexed journal, SJR 2017 & CiteScore 2017 Q2 on both of the (Electrical & Electronics Engineering) and (Computer Science). Congratulations!

This journal is an OPEN ACCESS. Why publish open access? IAES open access authors benefit from: Quality, established and reputable journal, reaching key audiences' with 5 million users per month, high citations, etc. Benefits of the OPEN ACCESS policy:

- Researchers as authors: immediate visibility for research output and thus increased visibility and usage of their results. Open Access may even lead to an increase of impact.
- Researchers looking for information: access to literature everywhere, not only from a campus but also from any site with wifi access.
- Funding agencies: increased return on investment (ROI), increased visibility.
- Universities & research institutes: greater visibility, clearer management information.
- Libraries: increased access for target audience, financially a more attractive model than the current subscription model.
- Teachers & students: unrestricted access to material, enriched education, allowing equality of learning in poor as well as in rich nations.
- Science: enhanced and accelerated research cycle.
- Citizens & society: access to knowledge/access to the results of publicly funded research.
- Enterprises: access to critical information.
- Publishers: transparent business model, ultimate online article distribution, ultimate visibility for articles.

So, Open access fee is paid by the authors, or on their behalf to support the cost of wide open access dissemination of research results, to pay deposit to CrossRef in order to each published articles has a Digital Object Identifier (DOI), to manage the various costs associated with handling and editing of the submitted manuscripts, and the Journal management and publication in general.

Dear Authors, Reviewers, Readers or Partners

Thank you for contacting us. We confirm that your email has reached us. We will reply to you as soon as possible.

For Authors: Thank you for considering *the International Journal of Electrical and Computer Engineering (IJECE)*, ISSN: 2088-8708 (**Scopus** indexed journal) as the right place for your work. You should **ONLY** submit your papers using [our online submission system](#) (**submissions by email will be ignored**). Please ensure that you have prepared your manuscripts in line with [the IJECE's Author Guidelines](#) (where there are further relevant instructions that you must read and follow to ensure your submission goes smoothly). A good research paper has a clear statement of the problem the paper is addressing, the proposed solution(s), and results achieved. It describes clearly what has been done before on the problem, and what is new. All submissions will be reviewed by three independent reviewers and refereed by the Editors. Submissions will be judged on the following criteria: *Relevance, Significance, Novelty, Technical correctness, Experimental/evidential support, Clarity of presentation and Reference to prior work and publications.*

How to submit your manuscript?

To make a submission, you must have a user account and **be enrolled as an Author**. User accounts can either be created by the Journal Manager or you can [register yourself](#) (this journal policy allow you create user account by your self as a Reader, an Author and/or a Reviewer). All fields with an asterisk beside them (Username; Password; Repeat Password; First Name; Last Name; Email) are mandatory. Your username and your email address must be unique; furthermore, while you can change your email address at a later date, you will be unable to change your username. If you want to register in another role within the same journal (for example, if you are already a Reader, but also want to become an Author) you can log in; go to Edit My Profile (under My Account on your User Home page); and check off the checkboxes next to any available roles, near the bottom of the page. Once you have an account, log in to the journal site and select the role of Author.

Your cooperation is very appreciated.

Best Regards,
T. Sutikno

Editor Subject: [IJECE] Editor Decision [DELETE](#)

2018-05-29 09:09 AM
The following message is being delivered on behalf of International Journal of Electrical and Computer Engineering (IJECE).

Dear Mr Erwin Erwin:

We have reached a decision regarding your submission to International Journal of Electrical and Computer Engineering (IJECE), "Hybrid Multilevel Thresholding and Improved Harmony Search Algorithm for Segmentation".

Our decision is: Revisions Required

Please prepare your revised paper within 6 weeks. Read the checklist for preparing your revised paper for publication at:
<http://www.iaescore.com/journals/index.php/IJECE/about/editorialPolicies#custom-3>.
Please try to follow the format as closely as possible.

In preparing your revised paper, you should pay attention to:

1. Please ensure that: all references have been cited in your text; Each citation should be written in the order of appearance in the text; The references must be presented in numbering and CITATION ORDER is SEQUENTIAL [1], [2], [3], [4],
The references must be integrated also with not less than three (3) papers published on IAES. You can find the issued at:
- <http://journal.uad.ac.id/index.php/telkomnika>
- <http://journal.portalgaruda.org/index.php/eei>
- <http://iaescore.com/journals/index.php/ijeecs>
- <http://iaescore.com/journals/index.php/ijpeds>
- <http://iaescore.com/journals/index.php/ijece>
- <http://journal.portalgaruda.org/index.php/eeesi>
- <http://section.iaesonline.com/index.php/ijeel>
- http://iaescore.com/journals/other_journals/
(Please use "Search" menu under "JOURNAL CONTENT" menu in right side of the site)

2 An Introduction should contain the following three (3) parts:

- Background: Authors have to make clear what the context is. Ideally, authors should give an idea of the state-of-the-art of the field the report is about.
- The Problem: If there was no problem, there would be no reason for writing a manuscript, and definitely no reason for reading it. So, please tell readers why they should proceed reading. Experience shows that for this part a few lines are often sufficient.
- The Proposed Solution: Now and only now! - authors may outline the contribution of the manuscript. Here authors have to make sure readers point out what are the novel aspects of authors work. Authors should place the paper in proper context by citing relevant papers. At least, 5 references (recently journal articles) are used in this section.

3. Results and discussion section: The presentation of results should be simple and straightforward in style. You should improve your analyzing and also present the comparison between performance of your approach and other researches. Results given in figures should not be repeated in tables. This section report the most important findings, including results of statistical analyses as appropriate. It is very important to prove that your manuscript has a significant value and not trivial.

Please submit your revised paper in MS Word file format (ZIP of your LATEX source files if you presented your paper in LATEX) and submit it through our online system at same ID number (NOT as new submission) or simple, by reply this email.

I look forward for hearing from you

Thank you

Best Regards,
T. Sutikno

Update your metadata in our online system when you submit your revised paper through our online system:

- Authors name are presented without salutation
- Authors Name are presented Title Case (ex: Michael Lankan, NOT --> michael lankan, NOT --> MICHAEL LANKAN). Add all authors of your paper as per your revised paper
- Title of revised paper (ex: Application of Space Vector , NOT --> APPLICATION OF SPACE VECTOR)
- Content of updated abstract
