Dear armina fariani,

Your manuscript entitled \"The Effect of Multilevel Ammoniation on The Digestibility of Palm Press Fibre\" (Ms.Nr. JAVAR-2020-07-144) was reviewed by expert reviewers of the Journal of Advanced Veterinary and Animal Research. As an initial decision, your manuscript was found interesting but some revisions have to be made before it can reach a publishable value.

Please answer all the comments below point-by-point in an accompanying response letter to your revised submission.

You should send your revised manuscript via the online system of ScopeMed on my.ejmanager.com.

Sincerely yours,

Prof. Nazmul H. Nazir, D.V.M., M.S., Ph.D.

<http://bdvets.org/JAVAR>

 COMMENTS for Authors:

Reviewer-1:

The content of the manuscript has novelty, in terms of digestibility of fiber. In addition to in vitro test, in vivo can be done for validation. However, the work can be published as a brief notes after necessary modifications.

- Formatting of the paper is not ok. For example, abstract must be sub-divided into Objective, Materials and Methods, Results, and Conclusion.
- Ethical statement is needed to mention in the Materials and Methods section.

Reviewer-2:

The manuscript has publication value in a good journal like JAVAR. The following points should be addressed before acceptance:

1. The knowledge gap is weak in the Introduction section. Please incorporate few more recent references and update the knowledge gap issues.
2. Focus on the novelty during writing a comprehensive Discussion, after adding few more recent references.

Final comment: the content can be published as short communication.

IMPORTANT: USE JOURNAL CONTACT EMAIL for your messages. Do not answer to this email. It is not checked for messages

Dear armina fariani,

[You have to add corrections ONLY in the PDF file with STICKY NOTES. No word file or modified pdf file is accepted at this stage]

Your article "The Effect of Multilevel Ammoniation on The Digestibility of Palm Press Fibre" is almost ready for publication at the Journal of Advanced Veterinary and Animal Research. But before publication, your final check will be highly appreciated. For this reason, the galley proof of your accepted article was uploaded to your author's homepage.

Please log in, download the proof and check/read it **carefully** for any mistake or typographical error(s); then submit your corrections (if exist) latest with the following **72 hours**.

Please check the "Author Queries" present at the end of the REFERENCES section and effect all the queries **carefully** which is mandatory to step forward the article for final publication.

Please note that if you ignore the "Author Queries", we will not be able to include your article in the upcoming issue. Please also consider that **no changes can be made in your article after this step**.
