## Reviews

### 2 ICECOS Reviews

#### Review 1 [not considered]

Relevance and timeliness	Technical content and scientific rigour	Novelty and originality	Quality of presentation
Good (4)	Marginal work and simple contribution. Some flaws. (2)	Minor variations on a well investigated subject. (2)	Substantial revision work is needed. (2)

#### Strong aspects (Comments to the author: what are the strong aspects of the paper)

This paper tries to discuss a hot topic, network analysis using data mining approach

#### Weak aspects (Comments to the author: what are the weak aspects of the paper?)

weak aspects of the paper

1. the paper is not well written. The grammar used by the authors differs seriously from normal English, and often produces significant changes in the meaning of sentences.
2. The figures are not clearly drawn.
3. is there correlation between "visualization" and "clustering"?

#### Recommended changes (Recommended changes. Please indicate any changes that should be made to the paper if accepted.)

1. ask for professional help to improve the paper structure and grammar
2. draw better figure, and visualize data in better way

#### Review 2 [not considered]

Relevance and timeliness	Technical content and scientific rigour	Novelty and originality	Quality of presentation
Good (4)	Solid work of notable importance. (4)	Some interesting ideas and results on a subject well investigated. (3)	Readable, but revision is needed in some parts. (3)

#### Strong aspects (Comments to the author: what are the strong aspects of the paper)

The paper is well written and organized.

#### Weak aspects (Comments to the author: what are the weak aspects of the paper?)

please read my comment below

#### Recommended changes (Recommended changes. Please indicate any changes that should be made to the paper if accepted.)

1. Figure 4, 7, 8, and 10 are unreadable.
2. update your references.
