Dear Indra Yustian,

My name is Melissa Márquez, and I am a contributor for Science Forbes. [You can see my previous articles here.](#)

I came across your most recent publication, "[First photographic inland records of bull shark Carcharhinus leucas \(Carcharhiniformes: Carcharhinidae\) in Sumatran waters, Indonesia.](#)" I found it really interesting! Congratulations on the publication.

I was wondering if I could ask some questions about this latest find and the important insights you all have regarding this topic. I think it would be a fascinating piece to showcase soon. Is this something you would all be interested in? Please let me know if you have any questions.

Regards,  
Melissa Cristina Márquez
