out students' perceptions, and the other one was used to analyze the needs of the students. The needs analysis was done based on four aspects of needs assessment: TSA, PSA, Deficiency Analysis, and Strategy Analysis. Afterwards, the obtained data were analyzed quantitatively. The results indicated that the students viewed English as an essential subject to learn. Furthermore, the students also perceived that integrating technology and Palembang culture into the English reading materials (textbook) was important in this 21<sup>st</sup>-century era. Besides, the students also believed that the current materials learned at school were not yet suitable for their needs, and they currently had difficulties learning English. In addition, the students hoped the reading materials contained the 21<sup>st</sup>-century skills and their local cultures related to their major. Based on the needs analysis results, further steps were necessary to provide the English reading materials integrated to Palembang local culture, which could facilitate students to improve their English proficiency in line with their department and the demands of the 21<sup>st</sup> century.

Kontennya bisa diterima, namun sebelum dipublish, pastikan untuk:

1. Mengurangi Jumlah kata yang terlalu banyak, seharusnya tidak lebih dari 8.000 kata
2. Perlu diproofread.
3. Cek ulang sitasi dan referensinya.

Terima kasih

Selamat pagi,

Kami saat ini sedang merevisi artikel terkait dengan tiga hal diatas. Ada dua pertanyaan yang ingin kami sampaikan. Pertama, gaya selingkung yang diterapkan di IJEFL Journal menggunakan APA 6th atau APA 7th dan kedua, jumlah kata yang maksimal 8000 kata itu termasuk referensi atau tidak.

Terima kasih,
