PREFACE

All praises be to God, the Almighty, for the blessings of His grace, and that we are given the opportunity to be able to publish this poem compilation. Special thanks are also addressed to everyone involved in the process of publication of this book. Besides, the writers also thank Dr. Rita Inderawati, M.Pd. for her guidance so that the authors are able to accomplish the poems and compile them. She is also one of the poets in it. Moreover, because of the chance she gave the authors to learn, recite and write, they are able to produce “heart touching” poems after long process of learning.

This book complies poems written by the 2nd semester students of Language Education Magister Program of Sriwijaya University who enrolled Literature in EFL Classroom Course taught by Dr. Rita Inderawati, M.Pd. and Dr. Margaretha Dinar Sitinjak, M.A. in 2020. It covers miscellaneous poems regarding the Covid-19 outbreak. The published poems are the best and the only poems written by the students after conducting several revisions, improvements, and plagiarism checking.

The writers do realize that there are still flaws in this book. Thus, suggestions and constructing critics are really needed to improve in the future. At last, hopefully this book will be useful for everyone reading this and will give new sights to the readers.

As the Dean of Faculty of Teacher Training and Education of Sriwijaya University, I appreciate the publication of this poem compilation for some reasons. Firstly, poem writing is important for the English Education Study Program students in order that they have a deeper understanding of the language and it also allows them to see their writing from different angles.

Secondly, I appreciate Dr. Rita Inderawati, M.Pd. and Dr. Margaretha Dinar Sitinjak, M.A for leading their students to produce their poems into poem compilation as well as the students for their spirits to write and pour their ideas into beneficial writings which may inspire others.

Finally, hopefully this book will be useful for everyone involved in the process of publication as well as the readers.

Is It You Next to My Door?

**Let Me Greet Him “Good Morning”
Rita Inderawati**

*He always says “Good Morning” to me
He is waiting for me put my shoes on
He is never bored looking at me
He keeps smiling though I leave him soon.*

*Hundreds even millions of mornings he smiles
Putting my shoes on again and again
Hope someone protects me in a while
Is there anyone? wanna shade from pain?*

*Suffering he shares all my life
He breaks my skin and face
He indeed ruins my performance
Keep saying “Good Morning” he doesn’t care.
These days no good morning I find*

Is It You Next to My Door?

Opening the door I wanna greet him

His absence disturbs my mind

These days I really miss him.

*Sitting, waiting, looking far to the
cloudy sky*

*Hoping he peeks at me through the
black cloud*

Remembering, regretting, sobbing

*Looking forward to greeting me "Good
Morning."*

*All the people, family, friends, I need
him so much*

*Please give me a little, even the worst
of the bright*

*Please wrap tightly the broken heart as
such*

*All the people now in the quarantine,
no longer covidiot*

Is It You Next to My Door?

*“Good Morning” dear charming sun
from the eastern horizon*

*He keeps the wounded heart
to greet me*

*“Good Morning” dear best creature
from the Almighty*

Let me greet him “Good Morning” soon

Is It You Next to My Door?

Covid-19
Sinta Octaviana

When the Earth finally gets tired
When the people become worried
When there seem no hope that fit

They—call it covid
They—say it's pandemic
They—are now in panic
The world is raged
It—is wrecked
While people

They suddenly turn into monsters
They are the true disasters
Their egos grow bigger
When they are actually weaker

Is It You Next to My Door?

It is not about how we lonely suffer

It is about how we support each other

This will not grow bigger

If we all work together

Is It You Next to My Door?

**180°
Nyimas L. Utami**

*Cheer to fear
One second we were glad, but now
we're scared
Over a very small thing, yet
threatening
Causing 180° change in our lives.*

*Fuss then cuss
Like no guilty felt towards nature
Do we really think that nothing
grounds all ensuing?
Do we? Do I? Do you?*

*Uncompromisingly forthright to
declare the desire of 180° turn to a
prior life*

Is It You Next to My Door?

Reflect to finally respect

Not only us to us

*But us to the entire earth and
everything that is in it*

*This sickened earth we're living in
needs to make 180° change*

And we are the cause, we are the cure

Is It You Next to My Door?

This is a Lesson – not a Loss

Riski Aginia Hafizha

*We are very fortunate,
This loss is not only a grief.
It is not only a loss – a chaos,
but don't you think you grip on your
belief?*

*Life is a fragile amber, a fist of sand,
an only torn paper.*

*All we do is only forgetting Him, then
we destroy life,
we cry – there, on hell.*

*God calls us with many signs, reaches
us with lots of hands, loves us in many
plans.
Yet us, people, are sick, some are*

*plastic. Others are arrogant, stubborn,
lots of them are greedy, most of them
lack of empathy.*

We mostly are thoughtless

We are cruel to life - we are heartless.

Then us, people.

Have we stayed true to the faith?

*Have we thought further through this
mass? Have we been grateful for every
breath?*

*For these disease, war, cruelty, villain,
assassin, slaughter - we are the actors,
we are the makers.*

*We, people, are the mass. We are the
sick. We are disgust.*

This pandemic is a warning.

*Cause we never learn, this happens
always with a lesson.*

But we, people, never learn.

We never listen, we never want.

Is It You Next to My Door?

*We are very fortunate,
We should be very fortunate,
This loss is not only a grief.
This loss is a lesson.*

God's Destiny
Riza Yoga Indriani

When all people are frightening of the crowd

*When all people are looking for the
quietness and the safest place*

*When all people are struggling to
survive and trying to save someone's life*

When all people are busy to find a way out

Because of a word "Corona"

*We can't see you clearly, but your
presence can be felt up to the artery*

*We can't hear you coming, but your
presence can make someone's heart
stops beating.*

*Don't you think this incident is the
God's trial for our life?*

For all people in the world?

I believe...

*Everyone deserves having a happiness
and sadness.*

I believe...

*Everyone deserves having a God's
destiny to live or die.*

Ready or not, it is destined by God.

*Are you afraid? Afraid of this
incident? The death? or afterlife?*

So, smile as you can

Laugh as you can

*Hug someone that you love before your
body is unable to move.*

Because..

Every breath is a struggle

Every breath is a life

Every breath is a gift from God

Is It You Next to My Door?

I realize that everyone around the world is like screaming to welcome "Corona".

Don't be panic.

Keep praying and believing in the God's destiny.

Is It You Next to My Door?

**Corona Virus
Nurul Fauziah**

Corona Virus

Dangerous, tense, and scary

Corona...

*A word that becomes a spectre that
frightens everyone*

*A word that worries mankind around
the world*

*A word that becomes a big problem for
all people*

However

*Do you know what is the reason behind
its emerge?*

*Can you guess why this pandemic
spread out all over the world?*

Is It You Next to My Door?

*Rather than just keep complaining
Have you ever thought why God
endows
this hard test to people?*

*Sometimes we don't realize
How much God is missing His Servants
How much God wants His servants to
be closer to Him
How much God hopes His servants to
be better persons*

*Rather than just keep complaining
over and over
Let's use this chance to be closer to Him
To get closer to our family by spending
more time with them at home*

Is It You Next to My Door?

*To love ourselves more by taking care
of it more*

What we need to believe is

God's plan is always the best

*God knows many things that human
doesn't know*

Don't forget

To take care of yourself

To stay away from the crowd

But

To get closer to God

Is It You Next to My Door?

Ah... You are a Killer
Rani Septi Sapriati

*Who are you?
Everyone's afraid of you
Nobody can't see you
But your presence makes us feeling blue*

*Who are you?
Invisible, tiny thing
Our days become gloomy
Scary news always occurs
You are so dangerous*

*Do you know that...
You mess up all our plans
Separate us with our friends
And ruin our fun*

Is It You Next to My Door?

*March has made us watch her gloom
No color, no race, and religion*

It's difficult to not panic

The death rate raises

The earth is quiet

Isolation is a must

Schools and mosques closed

Activities stopped

Our love is on lockdown

However some are still outside

Just to fill their stomach

They may be worried

*About the money, jobs and
bills*

Is It You Next to My Door?

Who are you the tiny things?

You are nothing

Stop your travel

And out from our earth

You are tiny

But you are more than lion

Some people lost their love

Their jobs, times and places.

Ah... you are a killer

Go out from our home

We want to get closer to our God

Family and society in the holy month

*Ramadhan later... Hopefully a blue sky
will exist soon*

Is It You Next to My Door?

**God's Tears
Praise Jopalina**

The wickedness ...

The violence ...

The prostitution ...

Shown, spoken, deified

Spread in anywhere

As if flew in no limit

Step for thousands mile in a minute

Forget who the creator of this world

Don't know the creatures who belong

All don't admit the owner

Corona created by Him

It belongs to Him

He presents little for our arrogance

Warn for the wickedness

To ask the human to kneel

Is It You Next to My Door?

To obey his edict

To stop to do all

Let's say, pray, hug

In the closest soul, He needs

Soon, Corona disappears

Is It You Next to My Door?

COVID-19
Fatimah Shahab

I, the newest evolving virus

I, the outbreak that shakes the world

People call me as COVID-19

*To shadow people around the world is
my ultimate goal*

*I have left my steps in more than 187
countries*

*Paralyzing people's immune system is
my work*

I am verily contagious

*I can move from one person to another
person easily*

*People will get quarantine once I
penetrate them*

*Being isolated and disconnected in
fourteen days*

Is It You Next to My Door?

*My existence is to slap people how
important the health is*

*Without me, people will not wash their
hands frequently*

*Without me, they will not treat their
body well*

I am, the COVID-19

*Will not haunt you if you are stronger
than me*

I am, the COVID-19

*Will disappear once I lose in the battle
with your immune troops*

To people around the world,

*Please take care of yourself unless I
will infect you*

Is It You Next to My Door?

**Because of Corona
M. Wahyudi**

*It is renowned as Covid-19
A virus, which is like a monster
A virus, which causes severe acute
respiratory syndrome
And a virus, which can run and
spread faster*

*Because of Corona,
About a thousand of people are killed
About a hundred thousand men are
infected
And other millions on earth fear
greater*

*Because of Corona,
A number of countries are locked-down*

Is It You Next to My Door?

*Lots of medical staff fiercely combat
And numerous schools are in closure*

Because of Corona,

A lot of families are separated

People do not believe around them

But believe God's help is so closer

**Corona, a Slander of World
Irnansyah**

Plague spreads all the world

Corona is the name

A slander of world

All people talk about it

Without knowing the solution

Most Mosques are silent because of it

Ka'bah stops its tawaf

Mosques are closed

Silaturrahim is suddenly cut off

Congregation is a one-distance meter

All are complacent without suspicion

Islamic scholars talk about it

Sharing miscellaneous practices

Is It You Next to My Door?

*Not yet the solution is
Just know to wait*

This is real science only

*Without the pleasure of Ihsan Allah
and His Messenger*

Only know on his behalf

Without knowing what the solution is

Yeah never mind ...

Just glorify it

Because the universe is all purifying

Rabb universe rulers of the universe

Is It You Next to My Door?

The Killer – Pandemic Eka Barahma Putri

People go outside - they die

People stay at home

They're stressed or happy?

No one can see

No one can touch

Even feel the pandemic

We're worried - afraid

And don't know what to do

When will the pandemic go?

*When can we do our activities as
usual?*

When?

No one knows

Is It You Next to My Door?

*Our families - friends - colleagues -
teachers are out there*

We're afraid

The Killer doesn't stop eating its prey

Don't know the old - young

Is it new born or not?

The killer doesn't care

We pray

We cry

And try to survive

And think

That - this will end soon

Is It You Next to My Door?

Is It You Next to My Door?

This is the Time
Fransiska Ika

The world is still
Supermarkets are empty and cabinets full
No more schools rush each morning
No coffee with a friend
Or even holy communion on Sunday

It's time to take shelter inside
All doors around us, from which we
are trying to escape are closing
All the ways we have used to run
away from ourselves
Stay inside watch the nature

Is It You Next to My Door?

*This is the moment to become still
To discover this whole world that's
inside us
And to find truth... and true care
To stop...to finally let go and be
Time has come*

*The universe is calling us to change
To stay where we are, as we are and
To see what blooms in the fields we
always took
From granted, because they were
called home.*

Is It You Next to My Door?

**Why Corona?
Fuji Oktaviani**

*Corona is not the only one which
suffers us*

Corona is not a killer

Corona is not a human disaster

Why should we blame on Corona?

Corona makes us closer to God

Corona makes us pray a lot

Corona reminds us to the death

*As it gives us time to ask more
forgiven from God*

Corona makes us become one

Corona asks us to stay at home for our life

Corona asks us to have a healthy life

Corona asks us to have a good life

Look positively

Is It You Next to My Door?

Corona makes us become better persons

*Because sick, old and death have been
determined by God*

Corona is just one of His ways

Is It You Next to My Door?

Escape
Yeni Oktarina

*When you come
I run into the dark
I try to escape
But you are in my shadow*

*Hopeless but I am sure
Tired but I keep
trying Tears in my heart
As if God would take my soul*

*No one care about me
They blame each other
World makes mistake
But these are our faults*

Is It You Next to My Door?

*Smile behind the sadness
Strong under the failure
You can be saved by yourself
Even it's too late*

*We don't give up with it
When one heart become
one soul There will
be the sunlight
After the darkness of the rain*

Is It You Next to My Door?

Dear My friends
Anisa Rhahima

*We used to go to the coffee shop and
share stories*

*We used to go to the supermarket
and buy some groceries*

*We were some kind of milk and
strawberries.*

But now,

*I need to stay at home and take care of
my health*

*You need to stay at work
and help others to be healthy.*

*We are in different places
but against the same disease*

*We are two different souls
but have the same goals.*

Is It You Next to My Door?

*Dear my friend and all who work in
the hospital*

*Who become the heroes in this Covid-19
phenomenology*

You are truly the real rock crystal,

I do proud for the things you do all.

May this pandemic go in blast

And we can meet as fast.

Is It You Next to My Door?

Like a Message

Rena Sylvia

*Corona Virus; breaks the trust,
separates humans, locks all activities,
and changes the world.*

Comes to the earth like a cheetah.

*Creates human's situation in pro and
contra.*

Changes world like a new ruler king.

*Corona seems innocent but loves
killing.*

Among humans there is no trust.

*Tolerance and shaking hands are gone
to the trash.*

*Humans chase market products in a
harsh.*

Poor people are left in the dust.

Is It You Next to My Door?

Suddenly the earth uses masks.

All the people are also in masks.

Situation shows human's masks.

All media, facts, and opinions ask.

Is it good or bad for the earth?

*All the bad and good daily activities
are stop.*

Do we have sins to the earth?

All the things must be off.

*Corona Virus comes to the earth like a
message.*

Breaks the trust, Separates humans

*Locks all activities, and Changes the
world.*

The Only Way, Lockdown

Ernawati

Yesterday and today, I try to wake up

Wake up from this bad dream.

The dream about the zombie land,

*where people are falling and
screaming.*

Others lock the door tightly.

But, . . .

No, this is real!, This is not a dream!.

*I see the World is resting by its own
business,*

I hear the World crying about its hard life.

Do you hear the owner talks now to us?

Do you feel it?

Is It You Next to My Door?

*Before people make jokes on this
situation,*

Before we take life for granted.

Now you see? ...

*The Army in Italy are driving their
big vehicles.*

They are not coming for war.

They are carrying dead bodies.

*The Covid -19 killed them and tortured
people in this world.*

It will hit you no matter who you are!

They are, hunting us.

Dear all,

*Just think of the people who are
affected.*

It happened in a span of weeks.

Stay there, hide in your hideout.

Is It You Next to My Door?

*Stay safe to get bright days like before,
for us and our family.*

*No other way now
The only way - Lockdown!*

Is It You Next to My Door?

It
Harli Zadtyi

*It comes without sounds,
Set its hook in us*

It is like wave bearing the rush

It is like dark cloud blowing darkness

It hugs himself tightly

It makes my breath seemed death

It snatch world, love and happiness

*It is like the wind removes the scent of
flower*

It makes us facing behind the glass

*Whispering to each other about
darkness*

*It makes live in a wave of anxiety and
fear*

Is It You Next to My Door?

*It changes love like the sea in the ray
of blood of the moon*

Death kissed himself with a grip

Burning my heart but unable to wipe

Unrest inspired my heart to beat

Only God is able to disappear It all...

**God's Mystery, the Fear of Corona
Preti Maha Sari**

Quiet...Calm...Peace...Cheerful...

Turning into...

Danger... Fear...

Thing never thought before has come...

Bring all the fear for human...

*A small thing even people can't see it...
it's so scary*

*It is corona... it is corona... a virus...
damage the world*

Illness, death, people afraid...panic...

*Then, just look around us... social
distance, isolation, stay home...*

Doctors take big effort...

Try to get rid of corona every time

Is It You Next to My Door?

*Give up, just for now on trying to make
the world*

different than it is.

*See... God sends his small army to
people, to earth...*

Only God knows the mystery

*We are weak... no strength only God
has everything*

*It is a symbol for human to remind
their Creator*

*Then something whispered in ears,
back to God*

Take pray... let's pray...

We beg for Him Mercy, dear God

Please forgive us

*Pray for us, pray for the earth, pray
for the world...*

Is It You Next to My Door?

Heedless We Are
Iwan Wijaya

Proud of what we got
Show off what we had
Count what we have done
Walk through the earth exultantly

With very tiny creature
You reprimand us Coronavirus or
Covid-19
Our treasure is meaningless
Our position is helpless

Is It You Next to My Door?

*Our fame is in vain O The Merciful
Forgive our sins like foams at sea
Your mercy is as broad as the sky
And everything in it*

*Really weak we are, no power and
effort*

Except with the help of Allah SWT

*It is You we worship and You we ask
for help Indeed*

With hardship will be ease

Is It You Next to My Door?

**Corona oh Corona
Shohibul Kahfi**

Corona...

Why do you attack us?

Both the young and the old.

Both the rich and the poor.

Both the healthy and the sick.

Corona...

What has human done to you?

Till you are mad at us.

Till you kill thousands of the innocents.

*Till you make the lovers despair for
hope.*

Corona...

*Did we deserve for what we have done
to mother earth?*

Is It You Next to My Door?

Then, you take away our fathers from us.

Then, you take away our mothers from us.

Then, you take away our children from us.

Corona...

Why are you so mean to us?

*Did you know we human really feel a
great loss?*

*Did you know we human now are
afraid to touch stuffs?*

*Did you know we human eventually
feels like in a chaos district?*

Corona....

Will you be our friends at the end?

Or you will fight against us forever.

You decide it, Corona...

Is It You Next to My Door?

**My Country Waits for Turn
Eza Septy Lesia**

*You came without anyone knowing
My morning, my afternoon, and my
night cannot be separated from your
shadow
Everything I planned was ruined by
your presence
Anyone who opposes you, will be
destroyed slowly.*

*Corona is your name
You are invisible
You are not heard
But you are deadly*

Is It You Next to My Door?

*Everyone panics about your presence
But not with me
Panic faced to you could kill me
Calmness facing to you is the best for me*

*There is nothing to regret
Even if they attacked me willingly
accept
Never lose hope
Especially to lose a dream*

Is It You Next to My Door?

Stay or Leave?
Ummy Wahyuni

*Don't you know?
Why has it happened?
Maybe it is our destiny
God wants to tempt us*

*Don't you know?
We are just ordinary people
We are just health workers
- who is also responsible for saving the
world*

*Don't you know?
We leave our home, family and also the
loved ones. Please...Help us to come
back home healthy*

Is It You Next to My Door?

We are just professional health workers

Help us

*We have a great opportunity to be
exposed to this virus.*

But we beg...

Help us to stay at your home

We fight here for you

You fight at home for us

Let's fight together

*Let's break the chain of spread of this
virus together...*
