IJASEIT FURTHER REVISION REQUEST

SICEST 2016 <sicest@unsri.ac.id> to me Tue, 7 Feb 2017, 14:53

English > Indonesian Translate message Turn off for: English

Dear Irwin,

Your article titled **Determining of Drying Characteristics for South Sumatera Low Rank Coal Using Solar and Laboratory Scaled Oven** is now in a process for publication in International Journal on Advanced Science, Engineering, and Information Technology (IJASEIT) indexed by SCOPUS.

Articles published in IJASEIT must meet the quality standards as measured by paper format, originality and significance of the contribution.

Based on that request, you are required to do a further revision based on reviewer comments (paper attached).

Please read the instructions carefully to avoid mistakes. After revision, please return the manuscript immediately before **February 11, 2017**.

As we know, any delay in returning the manuscript will cause delay in the publishing process. Your cooperation will be very much appreciated.

Thank you.

FURTHER REVISION REQUEST

SICEST 2016 <sicest@unsri.ac.id> to me, Irwin Fri, 6 Jan 2017, 11:32

English > Indonesian Translate message Turn off for: English

Dear, Irwan Bizzy

Your article titled **Determining of Drying Characteristics for South Sumatera Low Rank Coal using Solar and Laboratory Scaled Oven** is now in a process for publication in International Journal on Advanced Science, Engineering, and Information Technology (IJASEIT) indexed by SCOPUS.

Articles published in IJASEIT must meet the quality standards as measured by paper format, originality and significance of the contribution.

Based on that request, you are required to do a further revision and add more pages in the manuscript. **The total pages required is 6 pages minimum exclude reference.**

Please read the instructions carefully to avoid mistakes. After revision, please return the manuscript immediately before **January 11, 2017**.

As we know, any delay in returning the manuscript will cause delay in the publishing process. Your cooperation will be very much appreciated.

Thank you.
