Greetings from Pekanbaru, Indonesia

We are writing to inform you of the URICET-2021 Proceedings progress. The following is the chronology time of the progress

1. On 14 Oct 2021, the conference was held successfully
2. On 24 Oct 2021, all manuscripts and all the supporting data needed have been submitted to the IEEE Xplore and the IEEE has received it
3. In early November 2021, the IEEE returned 13 papers to be revised and URICET immediately revised and sent it again after two days later
4. Mid-November, we were very happy because IEEE sent an invoice for the publication fee and URICET paid it two days after that. This invoice should indicate that the URICET Proceedings will be published in the next 3 weeks (this is the common practice in the IEEE and the other publishers such as IOP, ACM and AIP, etc, the publisher will publish after they receive the publication fee). Just for the information this is one of the proceedings of the other conference that was held by Universitas Riau (the URICET committee were also the committee of this conference). This proceedings have been published by IOP two months after the conference date: <https://iopscience.iop.org/issue/1742-6596/2049/1>
5. At the end of November, URICET did also the payment of invoice for EDAS and IEEE Indonesia.
6. On December 7th, 2021, surprisingly, IEEE Xplore informed that the URICET Proceedings were rejected and will not be published (the reasons: many papers outside the scope and poor in writing and layouting). However, they provided a chance for appeal.
7. Together with the IEEE Indonesia Section, the URICET immediately appealed for this rejection. In conclusion, from January 2022 until now, the URICET proceedings have been under a series of assessments by the IEEE volunteers.
8. For the information, The IEEE Indonesia Section informed us that the proceedings rejection by the IEEE Xplore has most commonly happened in the last two year.

Hopefully, the URICET Proceedings can be published soon by the IEEE Xplore.

Thank you.

Best regard,

Prof. Nur Islami, Ph.D

3 Oktober 2021 pukul 13.00

Kepada: iyakrus fkip <iyakrus@fkip.unsri.ac.id>

Dear Mr/Mrs. Iyakrus Iyakrus from Sriwijaya University, Indonesia

Thank you for your participation in The UR-International Conference on Education Technology 2021 (URICET-2021), which will be held **online on October 14, 2021 by ZOOM application.**

Congratulation, URICET-2021 has decided to accept your manuscript entitled “**Development of STEAM-Based Physical Education Learning Model to Improve Physical Fitness of Elementary School Students**” for oral presentation. We will deliver your manuscript to IEEE Xplore for publication. We will review the revisions you have submitted and contact you if there are still any further comments.

You are allowed to make payments on **October 3 – 6, 2021** with the amount listed on the website (<https://uricet2021.fkip.unri.ac.id/registration-fee/>). After you make the payment, please kindly register to the conference by uploading the payment receipt on <https://uricet2021.fkip.unri.ac.id/registration/>. **We will assume that you resign as a participant if you are late to do the payment and registration.**

The committee will send you the program booklet and detail of conference rundown by e-mail around October 10-12, 2021.

We are looking forward to seeing you in the **URICET-2021** and share your experiences and expertise with other participants.

Best regard,

Prof. Nur Islami, Ph.D

Dear Authors,

Greetings from Pekanbaru, Indonesia.

We would like to inform you that the appeal process to the IEEE has paid off, although it has taken a long time. The URICET-2021 proceedings were finally accepted by the IEEE for publication in the IEEE Xplore digital library. Based on the IEEE information, they have removed 33% of total submitted papers. We will inform you once the final accepted papers are published by IEEE Xplore.

Thank you.

Best regard,

Prof. Nur Islami, Ph.D

Kepada: iyakrus fkip <iyakrus@fkip.unsri.ac.id>

Dear Author,

Greetings from Pekanbaru, Indonesia

The URICET-2021 committee would like to deliver our thanks for your contribution to make this conference successful. Please find the presenter's certificate in the attachment. All the progress of the publication in the IEEE Xplore will be informed through this email in the near future. See you in the next URICET-2021.

Thank you.

Dear Authors,

Greetings from Pekanbaru, Indonesia

We are pleased to inform you that the Proceedings of URICET-2021 have been passed for the second stage by IEEE. However, in this second screening, the IEEE found some fundamental problems there. Our team will contact each first author by call / Whatsapps immediately to take action on that . If our team doesn't contact you, it means that your paper has no problems at this stage.

Thank you

Best regard,
