- 1. Abbreviations must be defined in the 1st place, e.g., RFID.
- 2. The number of references is not enough.
- 3. Introduction section is short.
- 4. The authors should mention their contribution and novelty compared to the previous work in the introduction section in a paragraph (or more) using some bullets.
- 5. Before section II, a paragraph must be added to explain what will be discussed in the following sections.
- 6. A reference should be given for Gaussian mixture model.
- 7. Related work section should be after the introduction section.
- 8. The author should do more comprehensive literature review by checking and citing more related articles.
- 9. Long table I should have separate caption in each column.
- 10. Some equations are blurred. They must be typed again.
- 11. Before (2), "N" is a Gaussian distribution not "gaussian dimension"!
- 12. The "future work" section should be added after conclusion.
