Safety and Social Pharmacology.

The venue of the 1st Phico is in Gran Dhika Hotel, Medan, Sumatra Utara, Indonesia. The speakers in the seminar came from four countries, namely Indonesia, Malaysia, Thailand and Kuwait. There are 174 participants who managed to make a presentation in English. It can be said that the first Phico is running well.

With the large amounts of paper that go beyond what has been targeted by the committee, the committee conducted a more rigorous review process to maintain quality standards. The review process involves the reviewer from neighboring countries and local reviewer, who has become an international journal writer. After the three-time review process, it was decided to accept only 79 articles.

Thank you all for your participation and the hard work of the committees. See you at next year Phico 2017.
