Below this, there are dates for when the course was opened (Friday, 31 March 2023, 11:00 AM) and when it is due (Friday, 31 March 2023, 9:00 PM). A paragraph of text follows, stating: 'Berikut saya sampaikan materi unt pertemuan minggu ini. Silahkan dibaca dan jawab soal-soal pertanyaannya. Kerjakan dengan baik, lengkap dan rapi. Tidak asal jadi. Ditulis di kertas HVS lalu scan pdf. Perhatikan deadline!'. A PDF file named 'TDN.pdf' is attached. ## Pertemuan ke 12 : 8 April 2023, Zoom

The screenshot shows a Zoom meeting in progress. At the top, there is a status bar indicating 'You are screen sharing' and a 'Stop Share' button. The main content is a slide titled 'PDB Hijau' (Green GDP). The slide contains the following text and bullet points:

### PDB Hijau

Green GDP

- Green GDP is an index of economic performance where the environmental consequences of economic activities is factored in. It monetizes the loss of the stock of natural assets and their biodiversity (Harrison, 1989; Hartwick, 1990)
  - Green GDP = Traditional GDP - cost of resource depletion - cost of environmental degradation (+ resources and environment to improve yield) (SEEA, 1993)
- Calculations for cost of resource depletion, environmental degradation, for resources and environment to improve yield are still debatable
- Market valuation, mostly recovery payments, is the most commonly use. Reveal preference methods could be more accurate.

On the right side of the screen, there is a video gallery showing four participants:

- Adelia Khairun Nisa
- MuhamMmad Vicky Riandi
- Junifer Tamin
- NASYWA ANINDITA ATHAULLAH

## Pertemuan ke 13 : 15 April 2023, Elearning

The screenshot shows a Moodle course page. At the top, there is a navigation bar with 'Dashboard', 'My courses', 'Homepages-UNSRI', 'Courses', 'Help', and 'Helpdesk'. Below this, the breadcrumb trail reads 'Dashboard > My courses > 2223-02-EKP207219 Ekonomi Pembangunan > Pertemuan 16 UAS > Assignment\_FW'. The main heading is '2223-02-EKP207219 Ekonomi Pembangunan Assignment\_FW'. There is a 'Mark as done' button. A grey box contains the dates: 'Opened: Tuesday, 11 April 2023, 4:00 PM' and 'Due: Friday, 14 April 2023, 12:00 PM'. The assignment text asks for a summary of a lecture on 'Pembangunan Ekonomi dan Hubungannya dengan Keberlanjutan SDA dan Ekonomi Lingkungan' and to include information from other sources about Green GDP. On the right, there is an 'Administration' sidebar with options like 'Assignment administration', 'Settings', 'Locally assigned roles', 'Permissions', 'Check permissions', 'Filters', 'Competency breakdown', 'Logs', 'Backup', 'Restore', 'Advanced grading', and 'Course administration'. At the bottom of the sidebar is a 'Navigation' section. Below the assignment text, there are two buttons: 'View all submissions' and 'Grade'. A 'Grading summary' section is also visible.

## Pertemuan ke 14 : 22 April 2023, Zoom

The screenshot shows a Zoom meeting with a screen share. The slide title is '3 Indikator penting. Triple Bottom Line'. The slide content includes: 'Triple Bottom Line', 'an accounting framework taking into account 3 dimensions of performance: economic, social and environment (Elkington, 1994; Lunasinghe, 1993)', and a list of three bottom lines: 'Economic growth: economic bottom line', 'People: social equity bottom line', and 'The earth, environment bottom line'. A bracket indicates these 'Cannot easily be added up'. There are two diagrams: a Venn diagram with three overlapping circles labeled 'Economics', 'Social', and 'Environmental', and a 3D pyramid diagram with axes for 'Economic values', 'Social values', and 'Environmental values'. # Valuasi Lingkungan

## Environmental Valuation

- Most of the environment are common properties. Difficult to properly value the environment; but ... has to be done
  - No "natural" market
  - Difficult to define the "commodity"
  - Uncertainty
- Travel cost method:
  - Harold Hotelling originally proposed the basic notion of the method in a letter to Park Services in 1947; Jack Clawson and Marion Knetsch refined method in 1966 → revealed preference method
- Contingent valuation method:
  - Suggested by Ciriacy-Wortrup in valuation of the economic effects of preventing soil erosion (1947). The first CVM design and implementation only occurred two decades later when Robert Davis assessed the economic value of the recreational possibilities of the Maine Woods by exploring the survey technique (1963) → stated preference method
- Imputed willingness to pay: Damage Cost Avoided, Replacement Cost, and Substitute Cost Methods
- More works in this topic since 1980s → Environmental Economics

- Konsep cukup rumit, kita mulai dari yang sederhana
- Weak approach perlu valuation
- Cabang ilmu pengetahuan: Environmental Valuation
- Problem:
  - tidak ada pasar
  - common goods

Zoom participants: Intan Aditya Ningrum AS, adelia rahmadani, Adelia Khairun Nisa, MuhaMmad Vicky Riandi.
