To whom it may concern:

In February 2024, Dr. M. Edi Armanto <[mediarmanto@unsri.ac.id](mailto:mediarmanto@unsri.ac.id)> reviewed a paper submitted to *AIMS Agriculture and Food*. The manuscript is entitled “Study of Soil Chemical and Physiological Change under Saturated Soil Culture to Increase Soybean Productivity on Tidal Swamp” by Munif Ghulamahdi, et al. We greatly appreciate Dr. M. Edi Armanto’s kind help in reviewing this paper for our journal.

Kind regards,  
Prof. Shouchuan Hu, Director of AIMS Press

A handwritten signature in brown ink, appearing to read "Shouchuan Hu".

*On behalf of*

Prof. Moshe Rosenberg, Editor in Chief of AIMS Agriculture and Food  
Department of Food Science and Technology  
University of California, Davis. USA
