

# Preface

The 4<sup>th</sup> Asia Conference on Mechanical and Materials Engineering took place July 14-18, 2016 in Kuala Lumpur, Malaysia and the objective of the conference was to share of experiences and research results and also discussion of the practical challenges in the area of materials and technologies of materials processing. ACMME was focused on topics related to new materials (composites, metals, alloys, chemical materials and etc) and also with advanced technologies of their synthesis, manufacturing and processing.

The proceedings of ACMME 2016 contain papers which were reviewed by international reviewers who were drawn from the conference committee members as well as were invited the international reviewers from all over the world.

On behalf of the organizing committee, we would like to thank the organization staff, the members of the program committee and reviewers. They have worked very hard for reviewing of papers and made valuable suggestions for improving of articles. We also would like to express our gratitude to the external reviewers, for providing extra help in the review process and of authors who presented the own research results to the conference.

Finally, we hope to see you all again in the next year of ACMME.
