PREFACE

The objectives of the International Conference on Information System Computer Science and Engineering (ICONISCSE) are to gain and expand knowledge of the latest issues, opinions, brilliant ideas about constructive comprehensive technological developments from students, researchers, and academics to bring new innovations in technology to a better future especially in the field of software engineering, computer engineering, computer science and information system.

The International Conference on Information System Computer Science and Engineering is a place of debate and sharing research ideas and results related to the topics of the conference.

ICONISCSE 2018 aims to be a hub for sharing research ideas and results, built on the scientific contributions of the participants, in accordance with the conference sections.

ICONISCSE 2018 brings together researchers, experts and representatives from maritime academia, companies, and public authorities, eager to review, discuss, and explore the latest opportunities and strengths in the software engineering, computer engineering, computer science and information system domain.
