Dear Author

We apologise for this late reply.

The second round of the review process has been completed.

2 reviewers reviewed your revised paper.

Reviewer #1 satisfied with the revision.

Reviewer #2 accepted the revised paper with minor corrections, and commented the following:

I have reviewed the manuscript entitled "R-Peak Detection of Beat Segmentation and Convolution Neural Network for Arrhythmia Classification" revised version and I found that the author(s) has made all corrections,

I have two more comments :

- 1- The spelling of convolution in title is not correct and I corrected it
- 2- Two sections have the same title evaluation and this is not valid so, I suggest to change it in section 3.3 to Evaluation results

Attached herewith, please find one/two/three/four/five/six reviewers' reports.

Please notice the following:

1. Acknowledge the receipt of this email
2. Address all the concerns/recommendations of the reviewers
3. All additions/corrections are to be highlighted in red colour in the revised paper.
4. Send a separate outlining of how did you address each reviewers' concern/recommendations.
5. Please take note that your revised manuscript may be rejected if the corrections and the revision are not satisfactory.
