Dear Author(s),

The next issue of our journal »**Ichthyological Exploration of Freshwaters**« is in preparation and we have prepared for you a PDF of the proof of your article.

Attached we send you two PDFs and a prepared list for your corrections in WORD:

1. the PDF of **your article** for your final corrections
2. a **letter** regarding your article in IEF and attached an **order form** for **additional reprints** and/or the **open access pdf**.
3. Attention please! The managing editor wants from now on **all corrections returned as listed in this attached WORD-file**. You will find a provisional list of line numbers on both sides of your corrections PDF to help you to identify the line of your desired corrections. This will help to safe time.

Please read this letter carefully, we have some important news regarding the reprints and PDF.

We are still late. **Issues #1 and 2 of volume 29 (2018)** are published and we want to print the next **issues #3 and 4 of volume 29 (2018)** as next and as soon as possible. Please send your **corrections** as soon as you can by e-mail **to Paulo Lucinda**.

If you want reprints, please send your **order** directly by e-mail or fax **to me**.

You will receive a **free** (not encrypted) **PDF** of your article. This will be in a lower resolution especially of the figures. You can use this for your work and to give it to your colleagues, but you are not allowed to put this e.g. on a website for free download or for a library for public use.

But we offer the authors to receive from us a **high quality open access PDF** at the same price what 100 printed reprints would cost. Only this registred PDF can be legally distributed, sent around and copied ... and e.g. placed on a website for public download.

We are on a good way, but still very late to publish this issue and we urgently need more manuscripts for IEF. Please, if you want to help that IEF can be published in the future years, send your articles to Paulo Lucinda and tell your friends and colleagues and students to publish in this journal. We tried to do our best for 28

Thanks.

However, the new figure does not IEF style and standards. Please keep the format/style of the previous version adding the required changes.

Received, thank you.

I went through your ms and have the following comments:

Figure 1: Delete "Malay peninsula", both arrows and "N".

Figure 1: You should address reviewer's comment 20: "record 1, 2, 3, and 6 no freshwater or no estuary". I understand that all your records are from brackish waters and the reviewer is suggesting that you should draw the rivers as you did for 4, 5 and 7 (to show and make clear that records are brackish not marine).

Dear Dr. Indra Yustian,

Please find attached the review of your manuscript (IEF 1112).

The reviewer (Dr. Jürgen Pollerspöck) waived his anonymity and would be happy to receive a pdf of your paper:

"you can inform the authors about my name and if possible I would be happy to get a pdf of the published paper".

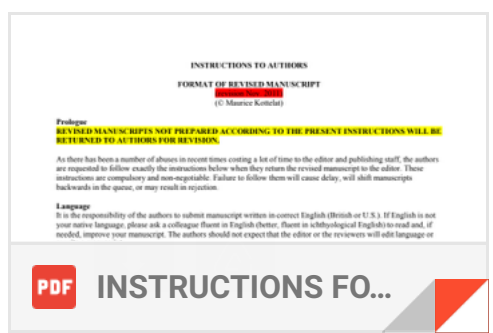

Please acknowledge receipt of this message and 2 attachments.

Please do not forget to review IEF instructions and to USE TRACKED CHANGES.

Best regards,
Paulo Lucinda
