Kepada: erwin@unsri.ac.id

15 Oktober 2021 09.15

Dear Dr. Erwin,

~~ Acknowledgment of manuscript submission for the journal Engineering Letters ~~

Thank you for your manuscript submission. The manuscript has been assigned manuscript number, EL_211011Jy, of title [A Hybrid CLAHE-GAMMA Adjustment and Densely Connected U-NET for Retinal Blood Vessel Segmentation].

The average review time is three months. Suppose you have not got the review result three months after getting the acknowledgement email, you are welcome to make the paper status enquiry with the manuscript number, EL_211011Jy. Before doing so, please check your junk box to ensure that it has not been filtered wrongly.

The manuscript will be sent to our reviewer in the related field. During the reviewing process, if the reviewer decides that the manuscript should be accepted with major revision or rejected, we will usually arrange another reviewer for reviewing the manuscript to check if the reviewing results are consistent.

We will contact you again once we have received the reviews. The average acceptance rate of the regular research papers in our journal is less than 10%. This reviewing process is to ensure the quality of the accepted papers in our journal, and we are looking forward to your understanding.

If you have any question, you are welcome to tell us.

Best regards,

Olive Choi

Dear Dr. Erwin,

[Review result of the submitted manuscript for Engineering Letters]

Thanks for your manuscript submission, and your manuscript (manuscript number: EL_211011Jy) of the title "A Hybrid CLAHE-GAMMA Adjustment and Densely Connected U-NET for Retinal Blood Vessel Segmentation" has been sent to our reviewer in the related field. We are happy to tell you that the review result has now been received. The acceptance rate of our journal is less than 10%. Your paper has been conditionally accepted but major revision must be made in order to satisfy all the conditions required by the reviewer. Please see the attached file for the review result.

Please send us the required items together on or before 21-Feb-2022 by replying this email.

Do not submit them via the online submission which is for new paper submission only.

We are afraid that we do not handle partial submission and those files not named properly.

#Required files (the files must be named as below):

- (1) a list of major changes in PDF or MS word { name it as change.pdf or change.doc/change.docx}
- (2) revised paper in camera-ready format in PDF { name it as revised.pdf}. Please provide the MS word version as well if you prepare it in MS word { name it as revised.doc/revised.docx}.

Other files should not be sent.

Please state the manuscript number, EL_211011Jy, clearly when you submit the required files.

Significant improvements are required. ##
#####

(1) a list of major changes

For any major changes which can raise the paper quality significantly, please state them clearly and briefly in the list of major changes in point form. There is no need to mention the changes of grammar/writing/format.

Highlight of the changed parts of the paper are not accepted.

(2) revised paper in camera-ready format

Please seek the help of a technical writer/colleague with a good command of English to improve and polish the paper.

The revised paper must be formatted using the template available at:
http://www.engineeringletters.com/author_information.html

Please check your revised paper against the checklist available at
http://www.iaeng.org/publication/download/Checklist_camera-ready_general.pdf

Common problems: problem code [3032], [3040], [3045], [7050], [7053] of the above checklist.

Usually, authors need to submit revised version more than once to be camera-ready.

Do not make any highlight of changes on the revised version.

Engineering Letters has been indexed by Scopus for more than 10 years according to the records shown in the official company website (Elsevier Scopus, visited on 27th August, 2021)

Dear Olive Choi,

I sent the revised manuscript ((manuscript number: EL_211011Jy)

of the title "A Hybrid CLAHE-GAMMA Adjustment and Densely Connected U-NET for Retinal Blood Vessel Segmentation" namely Revised_EL_211011Jy and change_EL_211011Jy in pdf and word.

I have corrected it according to the results of the review and used the camera-ready format.

This revised manuscript has been proofread and has involved discussions with several research colleagues in the field of imagery, especially retinal images.

This research is funded by the Ministry of Education, Culture and Technology Research, the Government of Indonesia in 2021 so that publication is requested for the issue of May 2022.

Thank you for your information and help.

== Revised Paper Submission Information ==
=====

The paper submitter must be the author of the paper. We do not accept someone to submit a paper on behalf of the author(s).

The following items are required:

1. Manuscript number, i.e. EL_211011Jy_second
2. Paper title of the revised manuscript
3. * Revised manuscript without any highlight in PDF
4. * A list of changes in PDF, stating clearly and briefly in POINT form of
 - any major changes which can raise the paper quality significantly (necessary for a manuscript accepted with major revision)
 - how to fix the problem code(s) if any.

* All files together should be less than 8M in total.

Invalid submission will not be handled.

A notification email will be sent once getting the online paper submission.

After checking the submission, an acknowledgment email will be sent within 10 days.

Suppose a further peer review is arranged, the average review time is 2 months. Suppose you have not got the review result 2 months after getting the acknowledgement email, you are welcome to ask for the paper status with the manuscript number.
