Effectiveness of Biomass-based Fly Ash in Pulp and Paper Liquid Waste Treatment

Dear Ms. Komariah,

The PDF for your above referenced manuscript has been built and requires your approval. If you have already approved the PDF of your submission, this e-mail can be ignored.

Please review the PDF carefully, before approving it, to confirm it appears as you expect and is free of any errors. Once approved, no further changes can be made.

To approve the PDF, please:

- \* Log into Editorial Manager as an author at: <https://www.editorialmanager.com/sajce/>.
- \* Click on the folder 'Submissions Waiting for Author's Approval' to view and approve your submission PDF. You may need to click on 'Action Links' to expand your Action Links menu.
- \* Confirm you have read and agree with Elsevier's Ethics in Publishing statement by ticking the relevant box.

Once the above steps are complete, you will receive an e-mail confirming receipt of your submission.

We look forward to receiving your approval.

Kind regards,

South African Journal of Chemical Engineering

Manuscript Number: SAJCE-D-22-00029  
Effectiveness of Biomass-based Fly Ash in Pulp and Paper Liquid Waste Treatment

Dear Ms. Komariah,

Thank you for submitting your manuscript to South African Journal of Chemical Engineering.

I have completed my evaluation of your manuscript. The reviewers recommended reconsideration of your manuscript following major revision. I invite you to resubmit your manuscript after addressing the comments below. Please resubmit your revised manuscript by Apr 14, 2022.

When revising your manuscript, please consider all issues mentioned in the reviewers' comments carefully; please outline every change made in response to their comments and provide suitable rebuttals for any comments not addressed. Please note that your revised submission may need to be re-reviewed.

To submit your revised manuscript, please log in as an author at <https://www.editorialmanager.com/sajce/>, and navigate to the "Submissions Needing Revision" folder.

South African Journal of Chemical Engineering values your contribution and I look forward to receiving your revised manuscript.

Kind regards,  
B C MESAP  
Associate Editor

South African Journal of Chemical Engineering

Editor and Reviewer comments:

Reviewer #1: The work reported in this manuscript is interesting and well presented. However, it requires corrections and improvements before the acceptance.

- The work requires revision. Some comments are:
1. An abstract is often presented separately from the article, so it must be able to stand alone. In the abstract, "results showed that FA predicted without treatment could....." explain and add quantitative data
  2. More elaboration on the chemical interaction between the components is required.
  3. The introduction, what is the gap to cover
  4. sec. In this work, the fly ash is divided into, was introduced without enough details on the steps and conditions, amounts, etc. the procedure should be reproducible.
  5. sec. The adsorbent effectiveness tests, please add conditions in quantity how the tests were performed.
  6. Instruments, tools used for testing should be reported.
  7. Please improve the analysis and interpretation of results
  8. In figure 2, before treated wastewater, there should be a step "filtration" or separation, please improve the figure
  9. The impact of parameters on the performance should be addressed and properly discussed
  10. Resolutions of figures can be improved, some figures can be combined together
  11. Clearly indicate by numbers how many tests you did under testing and justify why you selected this
  12. update introduction: update the paragraph after "other possible wastes include wastewater, sludge of various types ....". Please update with related articles such as <https://doi.org/10.1016/j.enmm.2021.100617>; <https://doi.org/10.1016/j.enmm.2020.100206>; <https://doi.org/10.1016/j.en.2021.101812>; <https://doi.org/10.1016/j.en.2020.101067>; <https://doi.org/10.1016/j.en.2022.101843>
  13. Captions of the figures and tables must be with complete information, conditions etc.
  14. Values in the tables should be of uniform significant figures, please check
  15. Please improve the conclusion with clear quantitative findings
  16. More emphasis on finding and its implication may be mentioned in the conclusion section.
  17. Types are to be corrected, also check the equations.

Fwd: Your revision is due Ms. No. SAJCE-D-22-00029

Dear Ms. Komariah,

We would like to remind you that your manuscript "Effectiveness of Biomass-based Fly Ash in Pulp and Paper Liquid Waste Treatment" was sent to you for revision on Mar 15, 2022. This is a reminder to complete your revision by Apr 14, 2022.

To submit your revised manuscript, please log in as an author at <https://www.editorialmanager.com/sajce/>, and navigate to the "Submissions Needing Revision" folder under the Author Main Menu. You will also find the Decision Letter there, with the full revision instructions.

If you do not plan to revise this paper, you may navigate to the "Submissions Needing Revision" folder and click 'Decline to Revise'.

If you require more time, please contact the journal office.

Kind regards,

South African Journal of Chemical Engineering

## Decision on submission to South African Journal of Chemical Engineering

South African Journal of Chemical Engineering <em@editorialmanager.com>  
14/05/2022 00:44

To: Leily Nurul Komariah

Manuscript Number: SAJCE-D-22-00029R1

Effectiveness of Biomass-based Fly Ash in Pulp and Paper Liquid Waste Treatment

Dear Ms. Komariah,

Thank you for submitting your manuscript to South African Journal of Chemical Engineering.

I am pleased to inform you that your manuscript has been accepted for publication.

My comments, and any reviewer comments, are below.

Your accepted manuscript will now be transferred to our production department. We will create a proof which you will be asked to check, and you will also be asked to complete a number of online forms required for publication. If we need additional information from you during the production process, we will contact you directly.

We appreciate and value your contribution to South African Journal of Chemical Engineering. We regularly invite authors of recently published manuscript to participate in the peer review process. If you were not already part of the journal's reviewer pool, you have now been added to it. We look forward to your continued participation in our journal, and we hope you will consider us again for future submissions.

Kind regards,
