### Additional Information

#### Author's note to the Editor

Dear Editor,

I wish to submit an original research article entitled 'Disclosure of Governance Practice by Islamic Banks in Indonesia

' for consideration by International Journal of Islamic Economics and Finance Studies.

I confirm that this work is original and has not been published elsewhere, nor is it currently under consideration for publication elsewhere.

In this paper, I report on that the index of governance of Islamic banks in Indonesia was still low when the guidelines sourced from AAOIFI and IFSB were used as benchmarks. The average score achieved by Islamic banks was only 37%. The score was classified as emerging practices.

We believe that this manuscript is appropriate for publication by International Journal of Islamic Economics and Finance Studies because it contributes to the development of Islamic Finance studies.

Thank you for your consideration of this manuscript.

Sincerely,

Inten Meutia

Reviewer A:

Result:  
It can be published after adjustments.

Comments:  
The paper includes lots of grammar mistakes. I have tried to correct them. The report attached shows the recommendations and corrections on the article with track changes feature of the word.

Reviewer B:

Result:  
It can be published after adjustments.

Comments:  
- 2017 data of the Islamic banks should be included if they are available.  
- Why the other two dimensions (13 and 14) were not added at Table 2?  
- Which statistical program did you use? it can be written in the paper.
