Inggris Indonesia [Terjemahkan pesan](#)

Dear Mr. Rudi Kurniawan,

We confirm that you has successfully upload your paper #1570636337 entitled: Automated Handwriting Analysis Based on P you an opportunity within 5 days to re-upload your review paper version. A high quality paper MUST has:

- A clear statement of the problem the paper is addressing --> explain in "Introduction" section
- The proposed solution(s)/method(s)/approach(es)/framework(s)/algorithm(s)
- Results achieved. It describes clearly what has been done before on the problem, and what is new.

The goal of this stage is to give you an opportunity to describe novel technical results.

There are four (4) types of technical results:

1. A theory: consisting of a collection of theorems.
2. An algorithm/method/approach/framework/ ;
3. A system construct: such as hardware design, software system, protocol, etc.;

The main goal of your revised paper is to ensure that the next person who designs a system like yours doesn't make the sarr discussed and the non-obvious mistakes (and how to avoid them) are discussed.

4. A performance evaluation: obtained through analyses, simulation or measurements;

Your cooperation is very appreciated

Sincerely yours,
 Assoc. Prof. Tole Sutikno, Ph.D.
