Dear Ms. Erliza Yuniarti:

Information about your paper #1570772167 ("Indonesian Load Prediction Estimation Using Long Short Term Memory") for IJAI 2020-2021 was changed by Erliza Yuniarti:

Bhakti Yudho Suprpto added as author

No further action is required from you.

If you have already submitted your manuscript, you can change it at any time before the deadline, by following the instructions below:

- Via web form upload.
- Via ftp: You can upload the paper to , using the file name 1570772167.

You can see all your submissions and their status at <https://edas.info/index.php?c=27307> using the EDAS user name

From there, you can see the current status of the paper, whether a manuscript has been submitted and can edit the paper information. You can directly view information about your paper at <https://edas.info/showPaper.php?m=1570772167>

Once you update your manuscript, you will receive another email confirmation. Confirmations for ftp submissions may take up to one hour since the ftp directory is swept only periodically.

Dear Ms. Erliza Yuniarti,

After careful review, your paper #1570772167 "Indonesian Load Prediction Estimation Using Long Short Term Memory" for the IAES International Journal of Artificial Intelligence (IJ-AI) requires MAJOR REVISIONS before being accepted for publication. The IJ-AI, ISSN/e-ISSN 2089-4872/2252-8938 is indexed in Scopus/ScimagoJR, SJR of 0.341 (2020), Q2 under Electrical and Electronic Engineering, and Information Systems and Management categories; SNIP of 1.276 (2020) and CiteScore of 1.6 (2020). The scope covers all artificial intelligence (AI) and machine learning (ML) areas and their applications.

The reviews are below or can be found at [1570772167](https://edas.info/1570772167), using your EDAS login name erlizay19@gmail.com. You are asked to submit a revised full manuscript, according to the comment from reviewers. For improving your paper, please read our published papers and cite them as appropriate. Search within <https://www.scopus.com/results/results.un?sort=plf-f&src=s&sid=69a64dd58bad014f334f1a9113addc2&sort=a&sd=a&sl=104&s=SOURCE-ID+%282821100373959%29+OR+SOURCE-ID+%2821100373959%29+OR+SOURCE-ID+%2821100826382%29+OR+SOURCE-ID+%2821100901206%29&origin=searchadvanced&editSaveSearch=&Gid=216633eacb8ada209f2a6961d037770> (you must have an access to [scopus.com](https://www.scopus.com)) in the upper left side by typing your keywords to find related papers. For your information, according to international regulations, similarity score of camera-ready paper must be less than 25%. Single author is PROHIBITED. The Technical Program Committee (TPC)/Editors will check whether the revision already address the reviewers' comments. Enrich content relate to artificial intelligence aspects. Failing to do proper revision may lead to the rejection of your paper.

Please your revised paper through the "Revision" upload button on EDAS platform within 8 weeks. Note: If you have any responses, comments or questions, please send a message to email: ijai@iaesjournal.com.

EDITOR comments: We would like your cooperation with the double check of your revised paper

(1) TEMPLATE, Please Strictly use and follow to the template Manuscripts (Word Format): <https://iaescore.com/gfa/ijai.docx>

(2) Authors are suggested to present their articles with IMRaD sections structure (outline): 1. Introduction - 2. The Proposed Method/Algorithm/Procedure specifically designed (optional) - 3. Research Method - 4. Results and Discussion - 5. Conclusion. Authors may present complex proofs of theorems or non-obvious proofs of correctness of algorithms after introduction section (obvious theorems & straightforward proofs of existing theorems are NOT needed).

(3) Introduction section: explain the context of the study and state the precise objective. An Introduction is presented within 3-6 paragraphs, and it should contain the following three parts (within 3-7 paragraphs):

- Background: Authors have to make clear what the context is. Ideally, authors should give an idea of the state-of-the-art of the field the report is about.
- The Problem: If there was no problem, there would be no reason for writing a manuscript, and definitely no reason for reading it. So, please tell readers why they should proceed reading. Experience shows that for this part a few lines are often sufficient.
- The Proposed Solution: Now and only now - authors may outline the contribution of the manuscript. Here authors have to make sure readers point out what are the novel aspects of authors work. Authors should place the paper in proper context by citing relevant papers. At least, 10 recently published articles are cited in this section.

(4) Method section: the presentation of the simulation/experimental method should be clear and complete in every detail facilitating reproducibility by other scientists.

(5) Results and discussion section: The presentation of results should be simple and straightforward in style. This section report the most important findings, including results of statistical analyses as appropriate and comparisons to other research results. Results given in figures should not be repeated in tables. This is where the author(s) should explain in words what they

mail.google.com/mail/u/0/#search/ijai/FMfcgzGllVqddjFRqKCKXcznMgPrNtP

Gmail

ijai

23 dari 38

discovered in the research. It should be clearly laid out and in a logical sequence. This section should be supported suitable references.

(6) (URGENT)!!! About Figures & Tables in your manuscript:

- Because tables and figures supplement the text, all tables and figures should be REFERENCED in the text. Authors MUST EXPLAIN what the reader should look for when using the table or figure. Focus only on the important point the reader should draw from them, and leave the details for the reader to examine on her own.
- Tables are to be presented with single horizontal line under: the table caption, the column headings and at the end of the table. All tables are produced by creating tables in MS Word. Captured tables are NOT allowed.
- All figures MUST be prepared by yourself and presented in high quality images

(7) Conclusion section: Summarize sentences the primary outcomes of the study in a paragraph. Are the claims in this section supported by the results, do they seem reasonable? Have the authors indicated how the results relate to expectations and to earlier research? Does the article support or contradict previous theories? Does the conclusion explain how the research has moved the body of scientific knowledge forward?

(8) Most importantly, please ensure the similarity score is less than 25%. You can refer to EDAS to see the similarity score of your paper. Any paper with a similarity score of more than 25% will be dropped. Please make sure your revised paper follow this rule. If the similarity score of final version is more than 25%, the TPC has the right to cancel the paper to be published in this journal.

(9) Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3,4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such [1], [3], [5] or [4-8]. It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list.

Examples of in-text citations:
 This theory was first put forward in 1970 [9].
 Sutikno [10] has argued that...
 Several recent studies [7], [9], [11-15] have suggested that...
 ...end of the line for my research [16].

(10) Please ensure the maximum page of your final paper is 8-page, but still allowed up to 14 pages (required to pay an extra fee).

Dear IJAI Authors,

Herewith we send a certificate for your contribution as an author to the IAES International Journal of Artificial Intelligence (IJ-AI). We are glad to inform you that your paper ID 21745 has already been PUBLISHED in the **September 2022** issue. You can visit the IAES IJ-AI Website or click on this link: <https://ijai.iaescore.com/index.php/IJAI/article/view/21745>

We are very thankful to publish your prestige paper. We hope you will publish more papers in the future and spread the journal among your community.

To improve citations, you can share your final paper online to make it more visible to others and increase your citation chances! Promoting your research is now easy thanks to sharing capabilities on social media websites, where you may already have many academic and industry connections, such as on Twitter, Facebook, Instagram, LinkedIn, Google Scholar, ORCID, Mendeley, ResearchGate, Publons, or Academia.edu.

Thank you for your hard work and your cooperation. Stay Positive, Stay Healthy, and Stay Safe.
