[TELKOMNIKA] Information about paper #1570654906 (Deep Learning with Focal Loss Approach for Attacks Classification) has been changed

telkonnika=u...@edas.info
kepada Yesi, Siti, Deris, saya

Sab, 20 Jun 2020, 06.52

Inggris > Galisia > Terjemahkan pesan

Dear Mrs. Yesi Kunang:

Information about your paper #1570654906 ('Deep Learning with Focal Loss Approach for Attacks Classification') for TELKOMNIKA was changed by Yesi Novaria Kunang.

Bhakti Yudho Suprpto added as author

No further action is required from you.

If you have already submitted your manuscript, you can change it at any time before the deadline, by following the instructions below:

- Via web form upload.
- Via ftp: You can upload the paper to , using the file name 1570654906.

You can see all your submissions and their status at

<https://edas.info/index.php?c=27504>

using the EDAS user name

1900cd7e56816f5...pdf

mail.google.com/mail/u/0/#search/telkonnika/FMfcgwxHNqNqStqSLthnNWBLtHBNNINWM

telkonnika

<https://edas.info/index.php?c=27504>

using the EDAS user name

From there, you can see the current status of the paper, whether a manuscript has been submitted and can edit the paper information.

You can directly view information about your paper at <https://edas.info/showPaper.php?m=1570654906>

Once you update your manuscript, you will receive another email confirmation. Confirmations for ftp submissions may take up to one hour since the ftp directory is swept only periodically.

Regards,
Assoc. Prof. Dr. Tole Sutikno
Editor-in-Chief,

-- TELKOMNIKA Journal for writing format and style
 -- <https://iaescore.com/gfa/telkonnika.docx>

Dear Mrs. Yesi Kunang,

We have reached an initial screening phase regarding your paper submission #1570654906 entitled *Deep Learning with Focal Loss Approach for Attacks Classification* to **TELKOMNIKA Telecommunication Computing Electronics and Control**. The **TELKOMNIKA** has been indexed by SCOPUS/ScimagoJR, SJR Q2 (<https://www.scopus.com/sourceid/21100256101>) and accredited First Grade "SINTA 1" by Ministry of Research and Technology/National Agency for Research and Innovation, Republic of Indonesia (<http://sinta.ristekbrn.go.id/journals/detail?id=664>).

Our decision is: Revisions Required before review process
 A high quality paper should has:
 (1) a clear statement of the problem the paper is addressing,
 (2) the proposed solution(s), and
 (3) results achieved. It describes clearly what has been done before on the problem, and what is NEW.

The goal of your first revision is to describe NOVEL technical results.
 Please note that there are four (4) types of technical results:

mail.google.com/mail/u/0/#search/telkonnika/FMfcgwxHNqNqmRBjldwHcbrnQDrjNQSD

telkonnika

29 dari 37

(1) An algorithm;
 (2) A system construct, such as hardware design, software system, protocol, etc.;
 (3) A performance evaluation, obtained through analyses, simulation or measurements;
 (4) A theory, consisting of a collection of theorems.

Your revisions should focus on:
 (1) Describing the results in sufficient details to establish their validity,
 (2) Identifying the novel aspects of the results, i.e., what new knowledge is reported and what makes it non-obvious;
 (3) Identifying the significance of the results: what improvements and impact do they suggest.

The main goal of this stage is to ensure that the next person who designs a system like yours doesn't make the same mistakes and takes advantage of some of your best solutions. So make sure that the hard problems (and their solutions) are discussed and the non-obvious mistakes (and how to avoid them) are discussed.

Original/Research paper should be presented with IMRaD style/model:
 1. Introduction
 2. The Proposed Method/Algorithm/Procedure specifically designed (optional).
 Authors may present complex proofs of theorems or non-obvious proofs of correctness of algorithms after introduction section (obvious theorems & straightforward proofs of existing theorems are NOT needed).
 3. Research Method
 4. Results and Discussion
 5. Conclusion.

We will usually expect a minimum of 25 to 30 references primarily to journal papers, depending on the length of the paper. You can find our published papers to enrich your references at:
 - <http://beei.org>
 - <http://ieeae.iaescore.com>
 - <http://ieecs.iaescore.com>
 - <http://ijai.iaescore.com>
 - <http://journal.uad.ac.id/index.php/telkonnika>

 - <http://ijra.iaescore.com>
 - <http://ijaas.iaescore.com>
 - <http://ijape.iaescore.com>
 - <http://ijct.iaescore.com>
 to improve your paper.

Submit your revised paper within 14 days, and do serious work for updating your paper (upload as new review paper version). Revised paper submission is submitted (as author version) on the same paper ID number through EDAS online system. When your revised paper reached us, it will be sent for single blind peer review by at least three reviewers who will either be members of the Editorial Board or others of similar standing in the field, for contribution, originality, relevance, and presentation. Then, your paper will be judged for final decision of acceptance or rejection.

We look forward to receiving the revised version of your manuscript and are delighted that you chose to send this important work to this journal.

Best Regards,
 Assoc. Prof. Dr. Tole Sutikno, Ph.D.

=====

Dear Mrs. Yesi Kunang,

After careful review, your paper #1570654906 "Deep Learning with Focal Loss Approach for Attacks Classification" for **TELKOMNIKA** Telecommunication Computing Electronics and Control requires REVISION before being accepted for publication in our Scopus indexed journal. You are asked to submit a revised full manuscript, according to the comment from reviewers. The Technical Program Committee (TPC) will check whether the revision already address the reviewers' comments. Failing to do proper revision may lead to the rejection of your paper.

For your information, **TELKOMNIKA** ISSN: 1693-6930, e-ISSN: 2302-9293 (<http://journal.uad.ac.id/index.php/TELKOMNIKA>) is open to submission from scholars and experts in the wide areas of electrical, electronics, instrumentation, control, robotics, telecommunication, computer engineering, computer science, information system, information technology and informatics from the global world. The aim of this journal is to publish high-quality articles dedicated to all aspects of the latest outstanding developments in the field of electrical engineering. Its scope encompasses the applications of Telecommunication and Information Technology, Applied Computing and Computer, Instrumentation and Control, Electrical (Power), and Electronics Engineering. It was first published in 2003. Beginning with issue 1 of volume 16 (2018), **TELKOMNIKA** will be published as a bimonthly journal (6 issues/year). The journal registered in the CrossRef system with Digital Object Identifier (DOI) prefix 10.12928. The Journal has been indexed by SCOPUS, Google Scholar, Scholar Metrics etc. accredited 'A' Grade by DGHE (Ministry of Research, Technology and Higher Education, Republic of Indonesia), registered BASE - Bielefeld Academic Search Engine and CORE KMI, etc. The Journal also have a license agreement with ProQuest LLC and EBSCO Publishing.

The reviews are below or can be found at <https://edas.info/showPaper.php?m=1570654906>, using your EDAS login name yesinovariakunang@binadarma.ac.id.

We would like your cooperation with the double check of your revised paper:

(1) TEMPLATE, Please Strictly use and follow to the template Manuscripts (Word Format) <http://iaescore.com/gfa/telkonnika.docx>

(2) Authors are suggested to present their articles with IMRAD sections structure (outline): Introduction - The Proposed Method/Algorithm/Procedure specifically designed (optional) - Research Method - Results and Discussion - Conclusion. Authors may present complex proofs of theorems or non-obvious proofs of correctness of algorithms after introduction section (obvious theorems & straightforward proofs of existing theorems are NOT needed).

(3) Introduction section: explain the context of the study and state the precise objective. An Introduction should contain the following three parts:
- Background: Authors have to make clear what the context is. Ideally, authors should give an idea of the state-of-the-art of the field the report is about.
- The Problem: If there was no problem, there would be no reason for writing a manuscript, and definitely no reason for reading it. So, please tell readers why they should proceed reading. Experience shows that for this part a few lines are often sufficient.
- The Proposed Solution: Now and only now! - authors may outline the contribution of the manuscript. Here authors have to make sure readers point out what are the novel aspects of authors work.
Authors should place the paper in proper context by citing relevant papers. At least, 15 references (recently journal articles) are referred in this section.

(4) Method section: the presentation of the experimental methods should be clear and complete in every detail facilitating reproducibility by other scientists.

(5) Results and discussion section: The presentation of results should be simple and straightforward in style. This section report the most important findings, including results of statistical analyses as appropriate and comparisons to other research results. Results given in figures should not be repeated in tables. This is where the author(s) should explain in words what he/she/they discovered in the research. It should be clearly laid out and in a logical sequence. This section should be supported suitable references.

(6) (URGENT)!!! About Figures & Tables in your manuscript:
- Because tables and figures supplement the text, all tables and figures should be REFERENCED in the text. Authors MUST EXPLAIN what the reader should look for when using the table or figure. Focus only on the important point the reader should draw from them, and leave the details for the reader to examine on her own.
- Tables are to be presented with single horizontal line under: the table caption, the column headings and at the end of the table. All tables are produced by creating tables in MS Word.
Captioned tables are NOT allowed.

mail.google.com/mail/u/0/#search/telkonnika/FMfcgwxjWVXDhwhKlmsLPBzZsbSsqDvb

telkonnika

28 dari 37

Captured tables are NOT allowed.
- All figures MUST in high quality images

(7) Conclusion section: Summarize sentences the primary outcomes of the study in a paragraph. Are the claims in this section supported by the results, do they seem reasonable? Have the authors indicated how the results relate to expectations and to earlier research? Does the article support or contradict previous theories? Does the conclusion explain how the research has moved the body of scientific knowledge forward?

(8) Most importantly, please ensure the similarity score is less than 25%. You can refer to EDAS to see the similarity score of your paper. Any paper with a similarity score of more than 25% will be dropped. Please make sure your revised paper follow this rule. If the similarity score of final version is more than 25%, the TPC has the right to cancel the paper to be presented at **TELKOMNIKA**.

(9) Please ensure the maximum page of your final paper is 8-page, but still allowed up to 12 pages (required to pay an extra fee).

Please upload the revised paper using EDAS on the "Revision" upload button within 8 weeks.

Thank you for your cooperation.

Dear **TELKOMNIKA** Authors,

We are glad to inform you that your paper ID 18772 now is **already PUBLISHED in the August 2021 Issue**. You can visit **TELKOMNIKA** Website or click on this link: <http://journal.uad.ac.id/index.php/TELKOMNIKA/article/view/18772/10585>. To increase citation, you can share the final paper to your Google Scholar/ResearchGate/etc.

Please read and check your paper carefully, because we will activate the number DOI soon. If there is any part incorrect, please inform us by reply to all this email. We cannot serve changes to papers that have an active DOI number. Please give your responses **before July 7, 2021**.

Thank you for your cooperation. Stay Positive, Stay Healthy, and Stay Safe.

Best regards
