thank you for your information.

based on your email, we prefer an ebook. It's more important for us.

Thank you for your kindness.

Best Regards,

Bhakti Yudho

I am pleased to inform you that the IET Book 'The Nine Pillars of Technologies for Industry 4.0' to which you contributed a chapter as a lead author, has now published. I am currently arranging gratis copies for this title, and as lead author of a chapter you are entitled to a copy. Please confirm whether you would prefer an eBook or hardcopy book. If you'd prefer an eBook, please respond accordingly and I will send you an instant download link. If you'd prefer a hardcopy, please fill out the below table with your mailing information. Please note hardcopies take approximately 4-6 weeks to arrive. Please note, the second wave of COVID-19 in the United Kingdom has prompted a country-wide lockdown. As a result, many of our warehouse staff are unable to travel to work safely, so our warehouse is working at a reduced capacity and there will be delays in the processing and shipment of hardcopies. I apologise for any inconvenience caused and thank you for your patience.

Name	Address	Telephone No.

As stated on your contract, all contributors are also entitled to purchase additional print copies of the book at a discount of 33% from the published price, and print versions of the IET's other books at a discount of 25%. To do this, please contact sales@theiet.org stating that you are a contributing author on this book.

Have you ever thought about publishing a book of your own with the IET? If you have an idea for a research-level book, we'd love to hear from you. Most of our books are edited publications offering a range of perspectives on recent research developments, but we also consider authored books. Please see the Proposal page at: <https://www.theiet.org/publishing/ir/publish-with-us/publish-with-our-books/submit-a-proposal/> If you are interested, please let me know and I'll put you in touch with one of our commissioning editors.

Best Wishes,

Olivia Wilkins
